Staff Comments

The applicant is seeking BHAR approval to install a new detached sign (7.40 sq. ft.) on the existing sign post in front of the 'Old Clerk's Office' building on 132 Main Street.

The proposed sign is in compliance with the town sign regulations.

Please refer to the enclosed color elevation of the sign, specification sheet and site photos.

If you have any questions about this item, please contact William Saunders at 365-4266.

BOARD OF HISTORIC AND ARCHITECTURAL REVIEW (BHAR) APPLICATION

Date of Application JULY 5, 2016 Date of Meeting AUG. 16 2016

In accordance with Article 3.M of the Zoning Ordinance, this application must be completed and all materials (Ten (10) copies each of completed application and additional materials) as requested below must be submitted to the town at least 21 days before the regularly scheduled BHAR meeting. If any new materials are submitted at the meeting, then the BHAR may table the application. The BHAR meets the 3rd Tuesday of the month (unless otherwise noted) at 6:30 pm in conference rooms A&B at the Smithfield Center, 220 North Church Street.

As of May 4, 2004, all applications approved by the BHAR shall begin construction, installation, etc. within one (1) year from the date of approval and shall be completed within two (2) years from the date of BHAR approval. If these two conditions are not met, then the application becomes null and void, and the applicant shall reapply to the BHAR. The applicant's, or their representative's, presence is requested at the meeting.

I, JENNIFER GANGEMI, am seeking BHAR approval for the following (check all that apply)
(print name)

which is located at 132 MAIN ST., SMITHFIELD, VA 23430 (THE CLERK'S OFFICE)

- New Single Family Residence** (submit roof, siding, brick, and color samples; window details; elevations of the structure; site plan/survey – also see NOTES 1 & 2, below)
- New Commercial Structure** (submit roof, siding, brick, and color samples; window details; elevations of the structure; site plan/ survey – also see NOTES 1 & 2, below)
- Addition to existing building** (submit roof, siding, brick, and color samples; window details; elevations of the structure; site plan/survey) (The addition will be _____ sq. ft.)
- Accessory structure** (i.e., shed, detached garage, etc.) Accessory Structure Height ____ ft.
(submit roof, siding, brick, and color samples; window details; elevations of the structure; site plan/survey)

Siding Change (submit siding sample)
existing siding: _____ proposed siding: _____

NOTE: The BHAR strongly encourages cement siding (i.e., "hardi-plank") as a more suitable alternative to vinyl siding.

Roof Change (submit shingle sample)
existing roof: _____ proposed roof: _____

NOTE: The BHAR strongly encourages that if you choose architectural shingles, choose at least 30-year architectural shingles.

Color Change (submit color samples)
existing colors: _____ proposed colors: _____

Sign (submit colored drawing (drawn to scale) with dimensions, plat/survey with sign location noted – Also refer to Article 10 of the Zoning Ordinance for sign regulations (i.e., max. height, max. size, etc.))

Window change (submit window details)
existing window type: _____ proposed window type: _____

BHAR Application (Supplement)
for The Clerk's Office, 132 Main St., Smithfield, Va. 23430
Operating as Boar & Gilt, a subsidiary of The Paisley Pig, L.L.C.

1. I, Jennifer Gangemi, seek BHAR approval for an outdoor sign for the new retail space Boar & Gilt scheduled to open the first half of September 2016 in The Clerk's Office.

2. Construction:

- 7-1"x6" cedar exterior lumber boards
- Trimmed/Framed in 1"x2" board
- 1/2" thick black wooden letters with gilded border spelling "BOAR & GILT" on both north and south sides of sign
- A 7"x5" gold wooden crown will float 3" above the letters
- "MENS & WOMENS BOUTIQUE" is engraved in black 5" below the letters
- Matte finish varnish overall
- Overall dimensions 27"x39 1/2"x1 1/2"
- Mounted on existing post
- Matches interior sign with same aesthetic/design

Attachments:

- A. Board of Historic and Architectural Review (BHAR) Application (10ea)

Overview

The applicant wishes to change the configuration of the windows and doors on the front of her home; specifically, by removing the asymmetrical bay window to centering the front door and placing a window on either side of the front door in a more symmetrical fashion.

For materials, the applicant intends to reuse the existing windows and intends to use non-asbestos replica cementitious shingles to replace the asbestos cement shingles that will have to be removed in the process.

No color changes are intended.

Contact William Saunders at 365-4266 or wsaunders@smithfieldva.gov with any questions.

Overview

As the result of a destructive house fire, the applicant wishes to demolish the existing non-contributing primary structure and replace it with a new home. The proposed new home would be similar to the existing home and built within the footprint of the existing structure.

Please refer to the enclosed renderings and specifications sheet for information regarding the proposed structure.

*NOTE: The applicant proposes vinyl siding, which has been denied for previous applications.

Joseph,

I hope that you are well. It was such a pleasure to meet you at the meeting on Tuesday, August 16th. Carr and I have so appreciated your help through this process.

We have decided to apply to add a shed in our backyard. To that end, please find the application for an accessory building attached. I'm also including additional details about the shed. While the shed would be delivered in a wood tone, we would paint it to match our home:

- Siding: Deep Raspberry Taupe
- Trim: Marshmallow White
- Shingles: Driftwood (architectural shingles, 25 year)

Here are details about the shed:

8x12 shed with 6" deep overhangs and a gable vent. The interior has a 2x4 wood frame and 637 cubic feet of storage space. Peak height is 6'4" ..

Shed Includes:

- Arched gable vent
 - Premium, locking t-handle
 - Durable wood floor with treated framing and 4x4 runners
 - 25-year asphalt shingles
-

Shed Features:

- 56" wide double doors with full-length galvanized steel hinges
 - Strong 2x4 wall framing with 2x4 roof rafters
 - 6" deep roof overhangs provide elegant styling and protection from the elements
 - Engineered, treated wood siding provides resistance against termites and fungal decay
 - Factory primed, ready to paint (paint/painting not included)
-

Shed Data:

- Cubic Ft. Storage: 637
- Sidewall height: 6'4"
- Peak height: 9' x.2"
- Door opening: 56" W x 70" H
- Dimensions: 8' x 12'
- Roof style: Gable
- Maximum wind resistance: 110 m.p.h.

I have included a photo of the primed, unpainted version for the board to review. I've also included a diagram and map of where the shed will be placed on our land

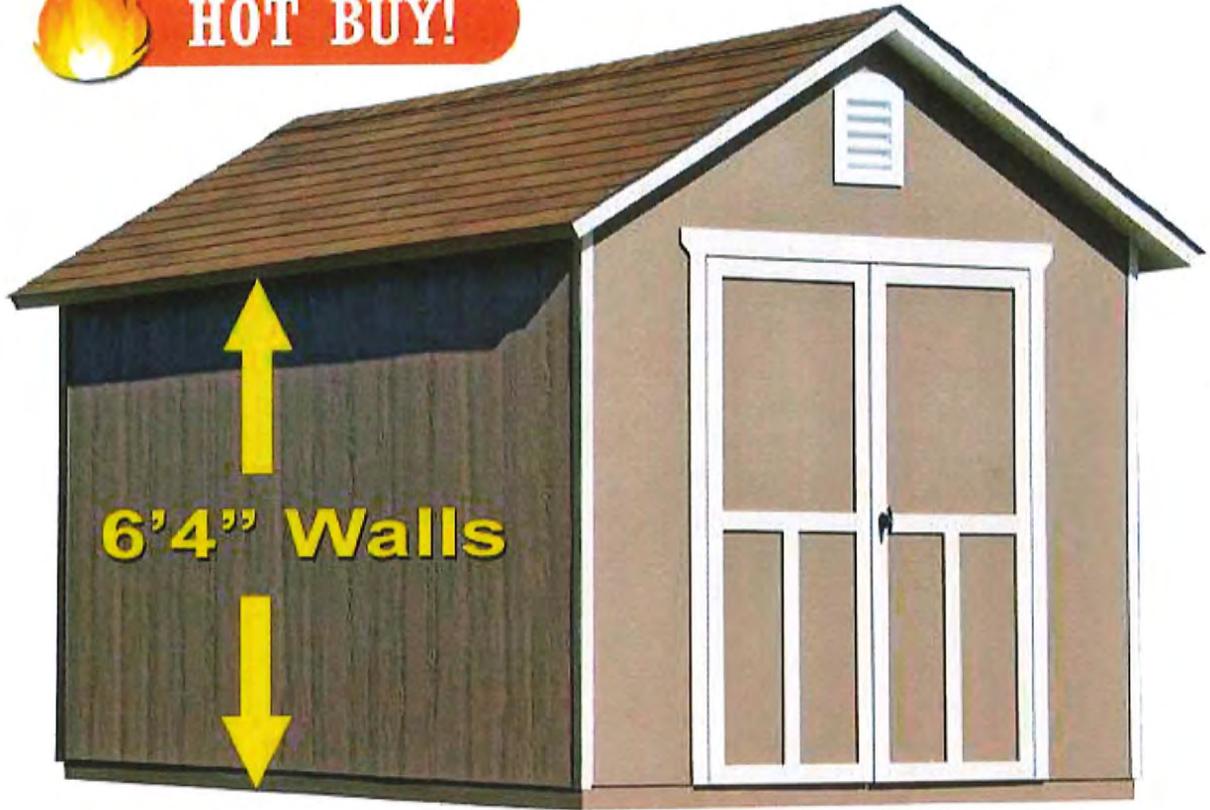

Please let me know if I may be of any further assistance. Thanks so much!

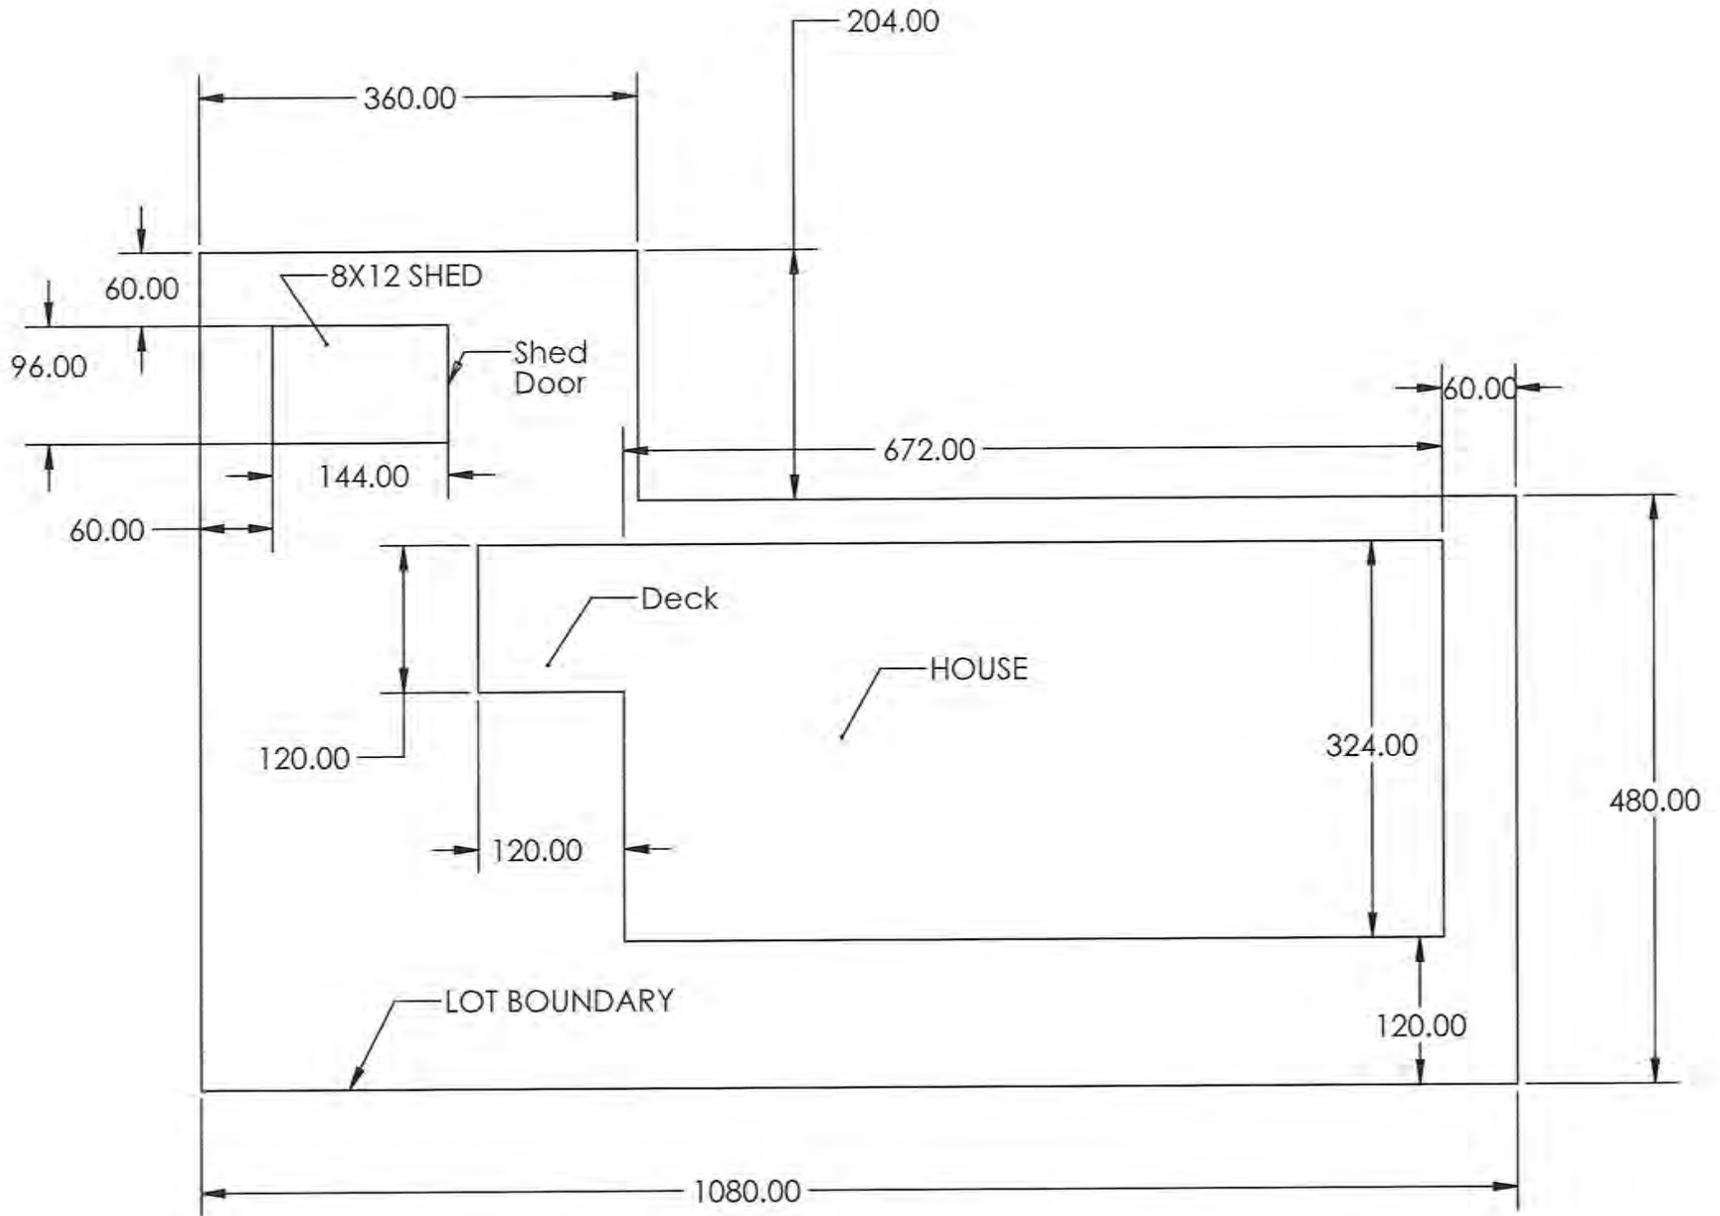

Best,

Claire Lewis

Project Overview

The applicant wishes to receive BHAR approval to demolish an accessory structure, an old barn, on the site of 111 North Church Street. Currently, the primary structure and site are undergoing a renovation and the removal of the barn is desired as part of the project.

The applicant also desires approval to construct a new structure that will resemble the smokehouse at Windsor Castle in its place with the following:

Siding and trim: Toile Red, to match the existing barn
Roof: Weathered Wood Architectural Shingles from GAF

Staff Comments

As a structure on a Contributing site, as well as a site adjacent to a Landmark site, the BHAR must review and approve the demolition.

At their August 16, 2016 meeting, the BHAR tabled this item for more information regarding the proposed accessory structure.

Contact William Saunders at 365-4266 or wsaunders@smithfieldva.gov with any questions.

BOARD OF HISTORIC AND ARCHITECTURAL REVIEW (BHAR) APPLICATION

Date of Application 9/13/2016 Date of Meeting 9/20/2016

In accordance with Article 3.M of the Zoning Ordinance, this application must be completed and all materials (Ten (10) copies each of completed application and additional materials) as requested below must be submitted to the town at least 21 days before the regularly scheduled BHAR meeting. If any new materials are submitted at the meeting, then the BHAR may table the application. The BHAR meets the 3rd Tuesday of the month (unless otherwise noted) at 6:30 pm in conference rooms A&B at the Smithfield Center, 220 North Church Street.

As of May 4, 2004, all applications approved by the BHAR shall begin construction, installation, etc. within one (1) year from the date of approval and shall be completed within two (2) years from the date of BHAR approval. If these two conditions are not met, then the application becomes null and void, and the applicant shall reapply to the BHAR. The applicant's, or their representative's, presence is requested at the meeting.

I, Matthew Liberman, am seeking BHAR approval for the following (check all that apply)
(print name)
which is located at 111 N. Church St., Smithfield, Va. 23430

New Single Family Residence (submit roof, siding, brick, and color samples; window details; elevations of the structure; site plan/survey – also see NOTES 1 & 2, below)

New Commercial Structure (submit roof, siding, brick, and color samples; window details; elevations of the structure; site plan/ survey – also see NOTES 1 & 2, below)

Addition to existing building (submit roof, siding, brick, and color samples; window details; elevations of the structure; site plan/survey) (The addition will be _____ sq. ft.)

Accessory structure (i.e., shed, detached garage, etc.) Accessory Structure Height 17'-0" ft. Demo. Barn: 22'-0"
(submit roof, siding, brick, and color samples; window details; elevations of the structure; site plan/survey)

Siding Change (submit siding sample)
existing siding: _____ proposed siding: _____

NOTE: The BHAR strongly encourages cement siding (i.e., "hardi-plank") as a more suitable alternative to vinyl siding.

Roof Change (submit shingle sample)
existing roof: _____ proposed roof: _____

NOTE: The BHAR strongly encourages that if you choose architectural shingles, choose at least 30-year architectural shingles.

Color Change (submit color samples)
existing colors: _____ proposed colors: _____

Sign (submit colored drawing (drawn to scale) with dimensions, plat/survey with sign location noted – Also refer to Article 10 of the Zoning Ordinance for sign regulations (i.e., max. height, max. size, etc.)

Window change (submit window details)
existing window type: _____ proposed window type: _____

September 13, 2016

Town of Smithfield

302 Main Street, P.O. Box 246, Smithfield, Va 23431

Dear Town of Smithfield,

We are submitting a proposal to both build a new shed, and demolish the red barn that is currently sitting behind the Smithfield Foods Engineering building here in town at the 111 North Church Street address. The barn is currently: taking up space, hides trash underneath, and is slowly falling apart which is posing safety issues.

The barn was built in the early 1900's and was one of many here in town that was built to store peanuts. Since their construction, most all but a couple have been torn down. We would like to demolish this barn, pave additional asphalt in its place, and erect a new shed to resemble the current barn. This would get rid of the safety issues and will clean up the back area.

With the demolition of this structure, there will be some historical value removed from the area. We plan on offering pieces of the barn to a few people in the town of Smithfield who want to add historical value to their work. A home builder has requested to obtain all 3 barn doors, and he will be using them in a new home that he will be proposing to build. Various artists in the area would benefit from the wood that makes up the barn as well. They will be able to design and build new artistic pieces that can both be displayed around town or be put up for purchase.

If the barn is to be removed, a new shed is proposed to be erected in its place once the parking lot is finished; this shed will be built to resemble the smoke house found in Windsor Castle Park. The shed will be painted with colors from the "Historic" paint pallet from Sherman Williams. Siding and trim will be matched to the existing color of the barn (SW: Toile Red), and the roof will be a "Weathered Wood" shingle from GAF.

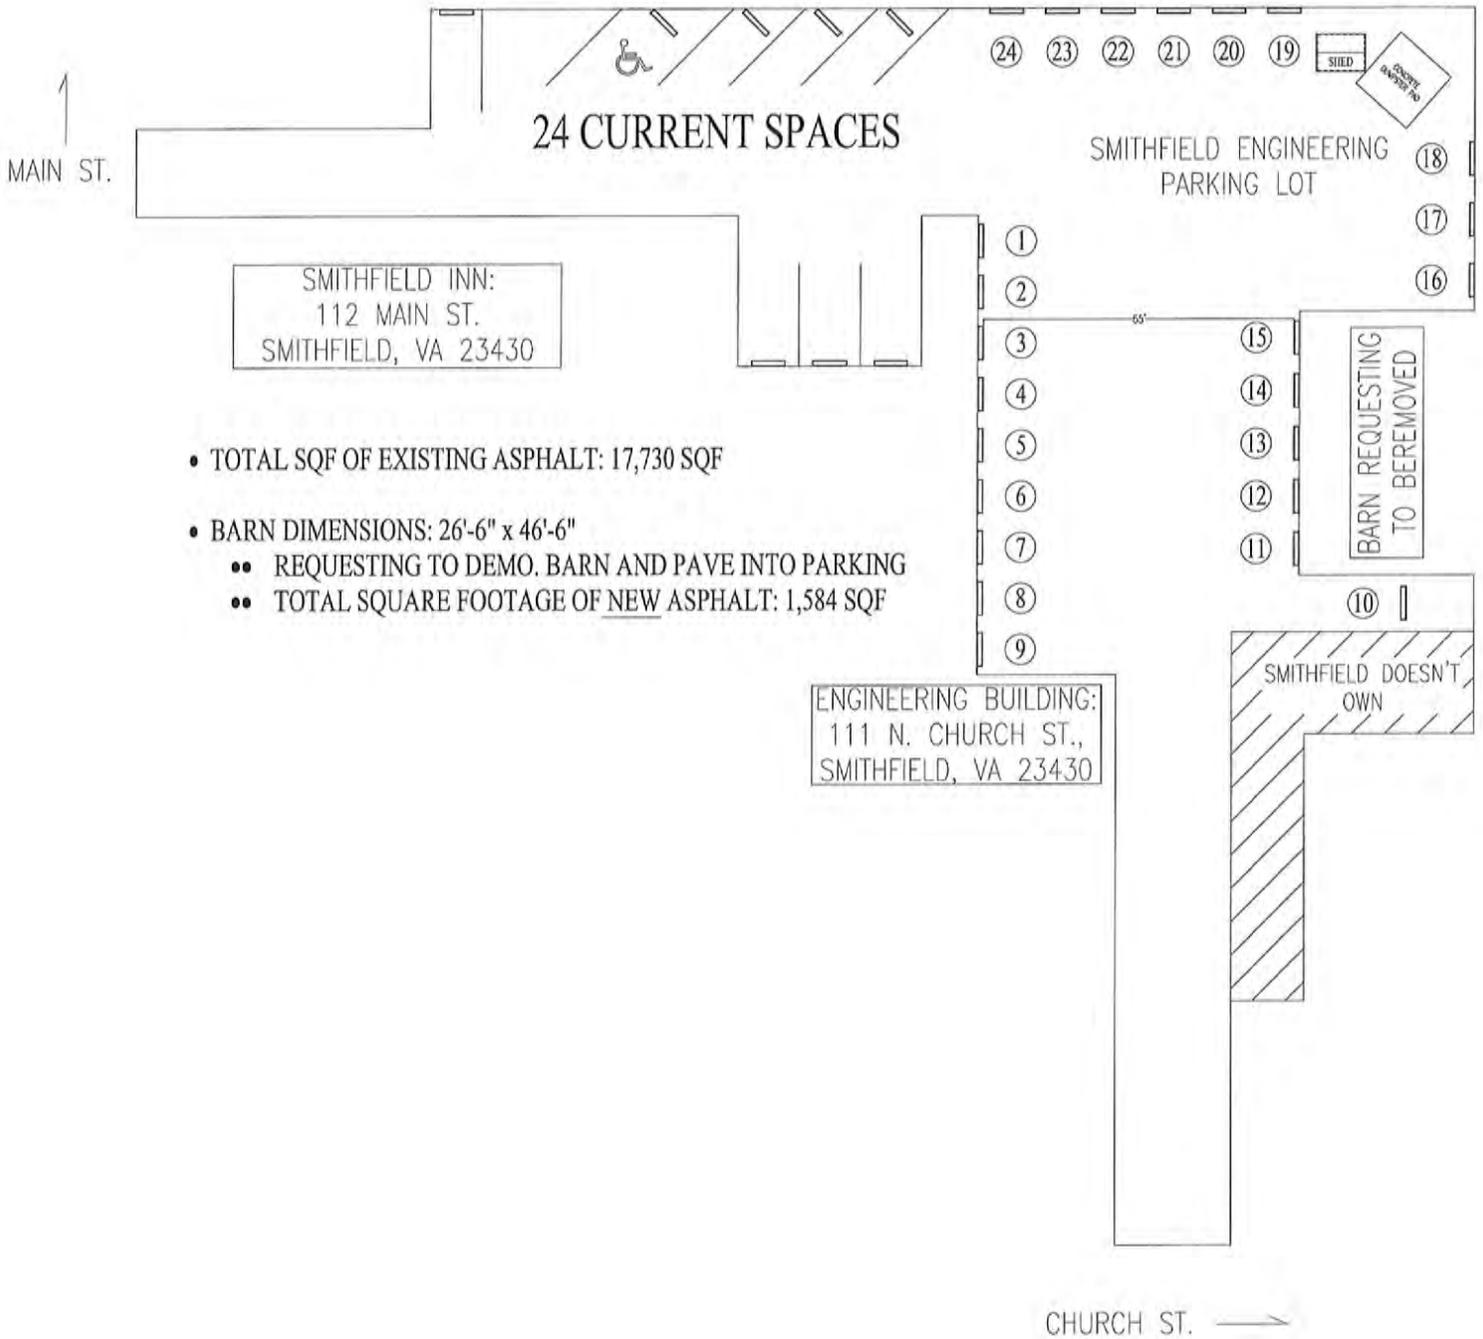

To summarize the scope of work, Smithfield is proposing: Demolishing the barn and offering pieces of the structure to some people of Smithfield to help maintain some of the historical value, build a new shed in the parking lot for the Smithfield Inn that will resemble the original smokehouse in Windsor Castle Park, re-seal the parking lot to match the new asphalt, paint new parking lines and place new parking blocks.

Warm regards,

Smithfield Foods

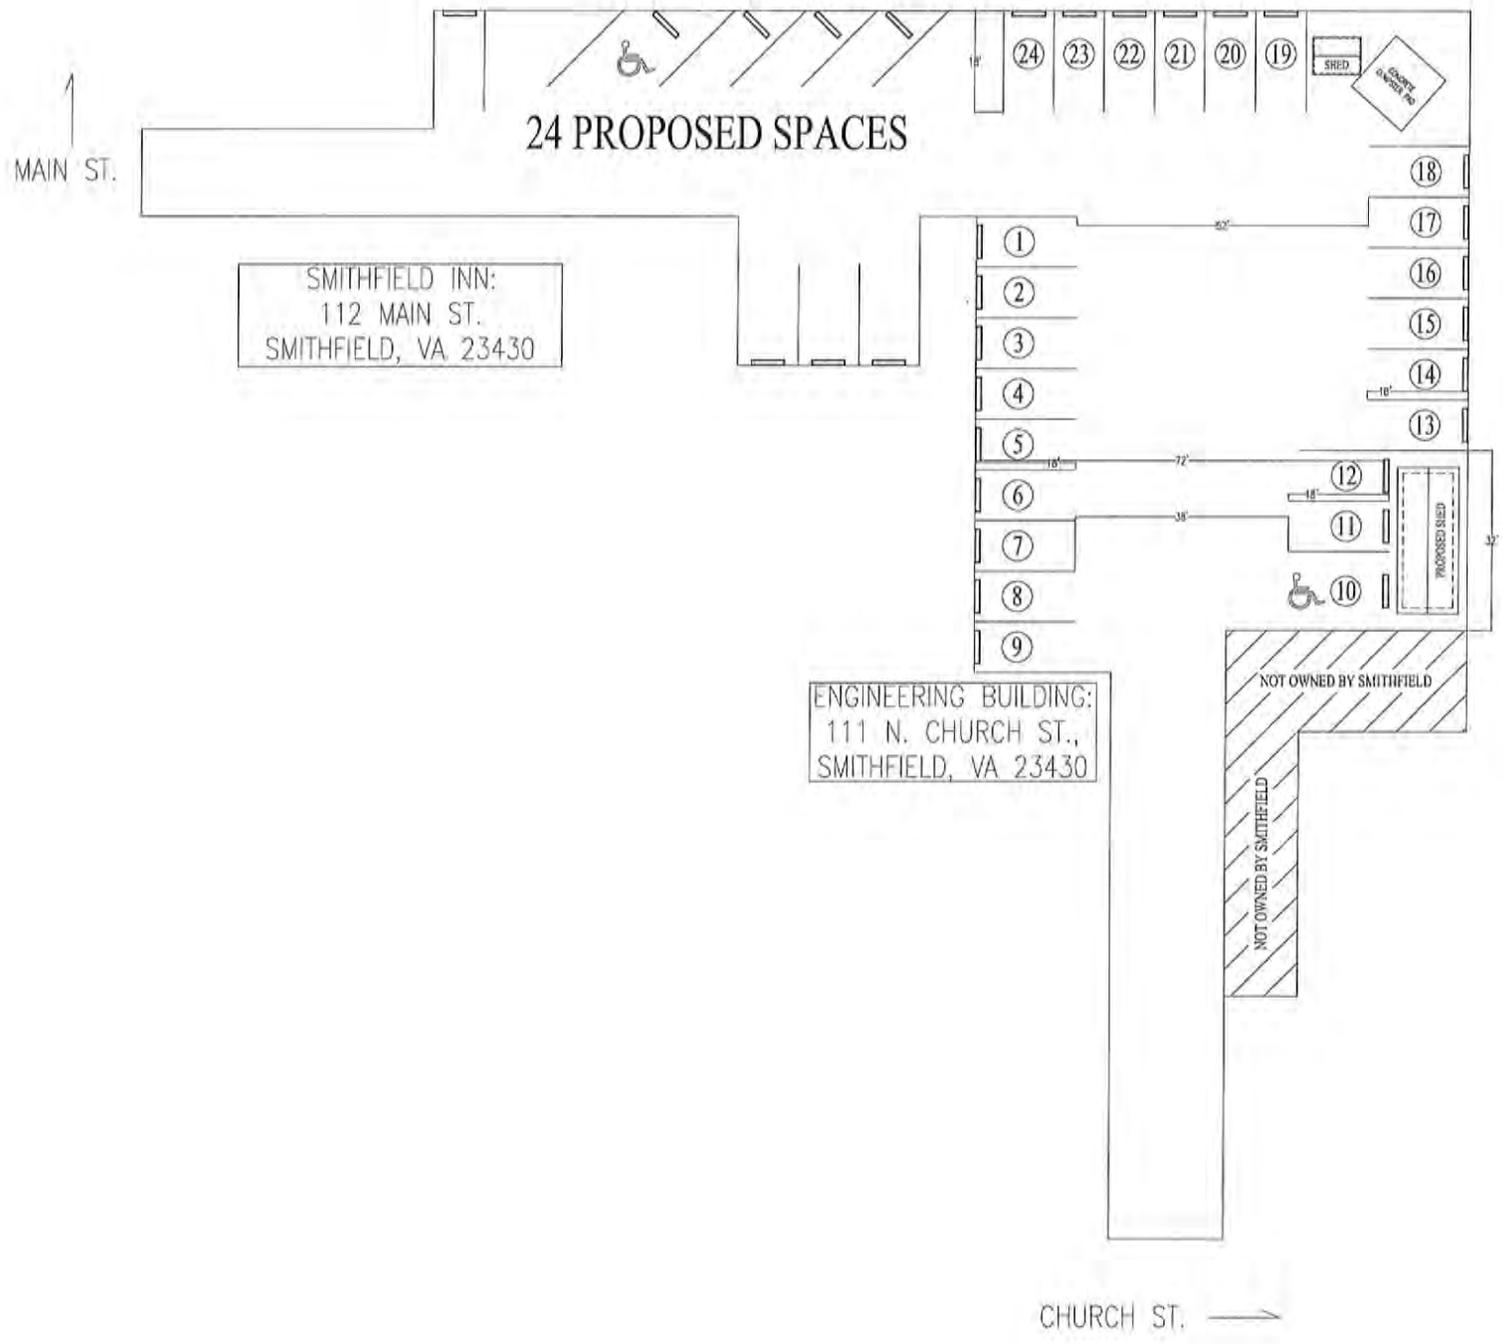

CURRENT

- TOTAL SQF OF EXISTING ASPHALT: 17,730 SQF
- BARN DIMENSIONS: 26'-6" x 46'-6"
 - REQUESTING TO DEMO. BARN AND PAVE INTO PARKING
 - TOTAL SQUARE FOOTAGE OF NEW ASPHALT: 1,584 SQF

PROPOSED

Residential District

Overview

As part of an extensive exterior renovation, most of which has been administratively approved as it does not change the materials or colors, the applicants desire to have BHAR approval to change the exterior colors and replace the windows.

The proposed color change would be to change the color of the siding on the primary structure, as well as the detached garage from white to Light French Gray; the trim would remain white.

The proposed window change would be to install Simonton vinyl replacement windows with large four over four muntins. These would replace the mix of windows currently in the home, some being original wood single-pane and others being low-quality vinyl replacement windows.

Contact William Saunders at 365-4266 or wsaunders@smithfieldva.gov with any questions.

Project	District Designation Review

Staff Comments

The Town of Smithfield's Historic District Ordinance has been in place since 1979 and its Design Guidelines since 1990. In the early 1970's a survey of historic properties in the Historic District was done to identify historic properties in town and in 1990, an update was performed in order to codify the designations of each primary structure in the district. The 1990 survey was conducted by Frazier and Associates, the firm who developed the Historic District Design Guidelines. These surveys were very comprehensive and remain relevant; however, some of these designations are based upon age and other criteria that are subject to change, so from time to time they should be reviewed for accuracy. Over the next several months it is proposed to review the designations of the primary structures in the historic district in order to update the ordinance accordingly.

These designations are the backbone of the ordinance and requirements, as they reflect the relevance and therefore the importance and level of scrutiny that is placed upon each property. These designations are formally, in order of importance, 'Landmark', 'Contributing' and 'Non-Contributing'; informally, there is a designation of 'No Designation', which is typically used for new construction in the district until such time as it is given a formal designation. There are criteria to consider in the determination of designation for our local district. Regarding the criteria, the Design Guidelines offer the following:

Non-Contributing: Non-contributing structures are those that were built less than fifty years ago (In 1990) or have been altered to such a degree that they are no longer representative of the period in which they were built or are in such poor physical condition that their retention is difficult. A majority of the non-contributing buildings were built at an appropriate scale and of material compatible for the historic district. However, unlike the earlier buildings, many of the newer commercial structures are dominated by large parking lots and a number of the non-contributing residences have a deeper setback than neighboring historic dwellings.

Contributing: Properties which contribute to the historic character of the Town, but which do not contain certain landmark structures, shall be known as contributing properties.

Landmark: All structures from the 18th century to pre-Civil War or structures with architectural significance from the period after the Civil War shall be considered as landmarks or landmark structures.

And from the HP-O, Historic Preservation Overlay District Ordinance:

-All structures designated on said map as structures from the 18th century to pre-Civil War or structures with architectural significance from the period after the Civil War shall be considered as landmarks or landmark structures.

-Properties designated as properties which contribute to the historic character of the Town but which do not contain landmark structures shall be known as contributing properties for the purpose of the ordinance.

Please contact William Saunders at 365-4266 or wsaunders@smithfieldva.gov with questions.

description and decorative details
Hipped roof with standing seam metal; overhangs a simple cornice supported by turned decorative posts; concrete and cinder block foundation.

9. General supplementary description and decoration:
2/2 windows; single-pile structure w/ side windows alternating on each floor; interior corbeled end-chimney on south side.

10. Major additions and alterations: 2 gable-end additions: 1-story addition on rear w/ shed off it to north; the other is attached to rear of 1st addition and is longer than main house; has simple chimney.

11. Outbuildings:
one barn

12. Landscape Features:
Relatively large lot, bordered by large mature trees.

13. Significance:
Nicely preserved example of vernacular residence from the turn of the century.
