

## **Tree Planting Cost-Share Program Guidelines**

The Town of Smithfield has lost many of its large canopy trees due to age, disease and storm damage. To that end, the Gwaltney Beautification Committee has unanimously voted to establish a tree planting cost-share program for the town with \$5,000 allocated from the Julius Gwaltney Beautification Fund (JGBF) for FY 2009/2010.

- Funds are available on a first come, first served basis as long as funds are available to any residential or business property owner within the Smithfield corporate limits on a 50/50 cost-share basis, with a maximum individual payment of \$500. Participants must complete application, town staff or an appropriate representative of the Gwaltney Beautification Committee will review the proposed planting location, and applicant will receive written notification of approval prior to any purchase of tree(s). Work cannot proceed until the applicant is notified in writing of approval by town staff. Any unapproved requests or purchases will not be reimbursed.
- Limit two (2) trees per address per program year.
- Trees must be professionally installed and have a warranty of at least one (1) year.
- Trees must be selected from the attached approved list of appropriate species and the planting site must be approved by town staff or an appropriate representative of the Gwaltney Beautification Committee. Preference is given to sites within public view.
- Newly installed trees should be a minimum caliber of 1-1/2 inches, but not more than a 2 inch caliber. Participants must install mulch around the planting area. Mulch may be self-installed and is not eligible for reimbursement.
- Participants will be accepted and approved on a first come, first served basis while funds remain available prior to the beginning of the planting season of October 15<sup>th</sup> to December 31<sup>st</sup>. Participants planting trees after the end of the designated planting season, without prior approval or trees not from the approved list will not be reimbursed for any associated costs.
- Participants must submit planting invoice and warranty not later than January 15<sup>th</sup> in order to receive reimbursement. Participants not supplying proper documentation (nursery bill with warranty) will not be reimbursed for any costs.

# Tree Planting Cost-Share Program Application Form

Tree species and site **MUST** be approved prior to purchase or start of work.
