SPRING

2017

**RESIDENTIAL CURBSIDE  
RECYCLING AND REFUSE PROGRAM**  
**CHANGE IN RECYCLING COLLECTION SCHEDULE**

The current residential curbside recycling and refuse contract will expire June 30, 2017. A new contract with Bay Disposal and Recycling has been approved and beginning **July 1, 2017** there will be a change in the **recycling (only) collection frequency. Recycling collection will be every other week** in an effort to provide the most effective comprehensive plan and better utilize taxpayer money. Every other week service also reduces truck traffic in your neighborhood, wear and tear on the streets, and reduces emissions from the trucks.

**Refuse collection will continue to be collected weekly on Mondays (West Side) and Tuesdays (East Side) and recycling will be collected every other Thursday (West Side) and Friday (East Side).** The Town will continue to provide one recycling and one refuse cart to all residents at no costs. For those residents that need more than one recycling or refuse cart, extra carts may be rented from Bay Disposal. Both recycling and refuse may also be taken to one of the many convenience centers located throughout Isle of Wight County.

Residents that do not currently have Bay Disposal and Recycling's green refuse carts will be provided one by June 30, 2018. Green recycling carts with the yellow lids will be provided to all residents by June 30, 2019.

A recycling collection schedule beginning July 1, 2017 has been included (page 4) in this newsletter. Please note that all changes to either recycling or refuse collection will be posted on the Town Website, Town Facebook page, and The Smithfield Times.

We understand this change may be a challenge and we appreciate your cooperation as we continue to strive to provide the best customer service to our residents. Please contact the Department of Public Works at 365-4200 or Bay Disposal and Recycling at 857-9700 with any questions.

### Letter from the Mayor

Thanks once again to the merchants on Main Street for their patience while the main water line replacement is under way. The work should be complete by the end of April and the street will then be "patched."

In May 2016, the town notified Dominion Power, Charter Cable, and Columbia Gas as to the work that was to be performed starting January 1, 2017. Columbia Gas decided in January 2017 that they wanted to replace the gas line, but couldn't start until April 2017 and then would take approximately 2-3 months to complete the work. With the tourist season coming, we felt that we didn't need Main Street torn up at that time. They have agreed to start in January 2018 and finish by March 2018. At that time, we can then repave the street.

The Joseph W. Luter, Jr. Sports Complex is well under way and ahead of schedule. We signed a contract to have the concession stand built, and although the bids were higher than anticipated, we are still slightly under budget. The concession stand is a multi-purpose building that contains two large rest rooms to handle the many people that will be on the site, a meeting room, a storage room, a kitchen, and serving room. Upstairs, there will be four press/announcer boxes that will overlook each field.

The Wombwell house is still for sale and we have reduced the selling price by 50% and it's now 50 cents. Any takers? All you have to do is remove it from the site.

Because bids came in way over budget, the plan for the boat ramp is undergoing changes. We are still pursuing this plan but we will not be launching boats this year. As you may know, we have received a grant from VMRC for \$250,000, but the bids were all well over that amount. Back to the drawing board. I am really looking forward to launching my boat in downtown Smithfield.

The Windsor Castle Park historic restoration project on the outbuildings, Manor house, and Caretakers house are well under way and ahead of schedule, thanks to the mild winter. Stop by and take a look.

Mayor T. Carter Williams

## Code Compliance Corner

Spring 2017

Hello again to all Smithfield residents from your Planning Technician/ Code Enforcement Official, Joseph Reish. I would like to take this opportunity to thank all of the Smithfield residents for doing their part in keeping the town looking great. For this newsletter, I offer a few suggestions to all the residents of Smithfield.

**Grass Height Violation Fines** – Spring is here and summer is just around the corner. It's the perfect time to let everyone know about the grass height violation fines. Town code chapter 86-1 now includes civil penalty fines for repeat offenders of this grass height code. The amended section of town code 86-1 now reads as follows; "In the case of subsequent violations not arising from the same set of facts within twelve months of an initial violation, a civil penalty shall be imposed on the property owner, whether the subsequent violation is *remedied by the owner* or his agent, or the Town or their agent. The first subsequent violation within twelve months of the initial violation shall garner a civil penalty of \$100.00; the second, a civil penalty of \$150.00; the third and all additional subsequent violations within twelve months of the initial violation shall garner a civil penalty of \$200.00 each." These fines are not steps that we wanted to take, but after an overwhelming number of grass height violations, a stronger grass height code was needed to be an incentive for town residents and property owners to maintain their property. Please keep your grass mowed so these fines don't have to be levied, and a big thanks to everyone who works hard to keep their yards and properties looking good.

**Building Numbers** - Some of the houses in Smithfield may not have visible street/ building numbers. Every building in town is required to have building numbers attached to the structure that should be visible from the road. Not having building numbers makes it harder for emergency services to locate you in the event of an emergency and is also a violation of town code.

**Historic District** - If you reside or own property in our beautiful historic district, please be aware that historic district structures are protected under town ordinance; therefore, allowing a building in the historic district to fall into a state of disrepair is a violation. With the warm weather approaching, now is a good time to paint and perform other maintenance; however, don't forget to get Board of Historic and Architectural Review (BHAR) approval before altering the appearance of any historic district building. Exterior work that is exempt from BHAR review and approval includes maintenance or repair that does not alter the original look of the structure, such as painting the building the same color. Two resources regarding the historic district can be found on the town's website: The Historic District Preservation Ordinance and the Historic District Design Guidelines. Find links to them and other information regarding the BHAR here: <http://www.smithfieldva.gov/page/board-of-historic-&-architectural-review/>. If you are not sure about any work that you intend to start, please contact the Planning Department.

Feel free to contact the Smithfield Planning Department with any questions or concerns, at (757) 365- 4271, or by e-mail at [jreish@smithfieldva.gov](mailto:jreish@smithfieldva.gov). Thanks again for keeping Smithfield beautiful. We can all work together to keep Smithfield a great place to live.

Joseph Reish, CZO  
Planning Technician

### Interested in Serving Your Community...

A Talent Bank has been established to compile a list of interested citizens, willing to serve on Smithfield's Planning Commission, Board of Historic and Architectural Review, and/or Board of Zoning Appeals when vacancies become available. If you are interested in serving your community please complete a Talent Bank form and submit it to the Town Manager's Office so that we have your information on file. If you have any questions please feel free to give Town Clerk, Lesley King a call at 757-365-9506.

### Golf Carts

REMINDER: Registration of golf carts is required to be driven on designated town streets. Registration forms can be picked up from the Treasurer's Office located at Town Hall.

### Safe and Lawful Utilization of Center Turn Lanes on Multi-Lane Highways

While patrolling the five lane portion of South Church Street, between Battery Park Road and Route 10 Bypass, all too often we observe vehicles utilizing the center turn lane as an intermediate acceleration lane to merge with traffic travelling in the same direction in the designated travel lane. This practice is forbidden by law and very dangerous. Virginia State Code Section 46.2-804 (5) states, "Wherever a highway is marked with double traffic lines consisting of a solid line immediately adjacent to a broken line, no vehicle shall be driven to the left of such line if the solid line is on the right of the broken line, except (i) when turning left for the purpose of entering or leaving a public, private, or commercial road or entrance or (ii) in order to pass a pedestrian or a device moved by human power, including a bicycle, skateboard, or foot-scooter, provided such movement can be made safely. Where the middle lane of a highway is marked on both sides with a solid line immediately adjacent to a broken line, such middle lane shall be considered a left-turn or holding lane and it shall be lawful to drive to the left of such line if the solid line is on the right of the broken line for the purpose of turning left into any road or entrance, provided that the vehicle may not travel in such lane further than 150 feet." Those that pull into the center lane to accelerate into regular travel lanes run the risk of either causing a head on collision with a vehicle that has entered the turn lane waiting to turn or a rear end collision with someone waiting to turn. The key here is that no one shall travel over 150 feet in the turn lane after entering. That is half of a football field which, at 35 miles per hour, one can cover in a little under 3 seconds...not much time at all to avoid a possible accident. We ask you to please refrain from travelling excessive distances in the center lane and to use the center lane for its intended purpose. The Smithfield Police Department works very diligently to maintain a safe environment for our motoring citizens. We ask your assistance in making our roads safe for all that utilize them.

### IRS Tax Help Scam

Tax season scammers netted over 1 billion dollars last year! One scam this tax season is the IRS Tax Help/Filing Taxes Scam. It comes to you as an email, phone call, or voicemail. Scammers claim to be calling about fraudulent numbers on your tax forms and initially ask for help finding what's wrong. Then as the victim gets freaked out about errors found on their tax submission, the scammers step it up and proceed to threaten arrest, lawsuits, suspension of their driver's license, and more - if they don't pay a fee, refund, or fine. **The initial pitch sounds like this:** "Hello, this is Officer Ryan Smith with the IRS. We're trying to notify you there is a tax fraud perspective in your taxes, which needs to be rectified immediately. I need you to call me back as soon as possible on my direct number, 1 (800) XXX-XXXX. Don't disregard this message, call me back as soon as you can". **Warning:** Criminals generally use common names to identify themselves. Some of them spoof IRS toll-free numbers on caller ID to make it appear the IRS is calling and are sometimes able to recite the last four digits of a victim's Social Security number. **How to avoid:** The IRS will **NEVER** call and demand payment. They will never demand payment without giving the tax-payer the opportunity to question or appeal the amount. **FYI:** Sometimes, scammers call workers who have done work in another state and say they are collecting for that state. **REMEMBER:** The IRS does not initiate action by phone. It's always through the mail.

### "Can You Hear Me?" Scam

Your phone rings. You don't recognize the number, but answer. The other person says, "Can you hear me?" As weird as this may sound: **DO NOT RESPOND!** Disconnect the call immediately. **How does the scam work?** The goal is to trick you into a verbalized recording of you saying "Yes." This method is used to authorize charges or open new accounts by companies that accept third party payment vendors. Regardless of the service they are promoting or selling, they are targeting you for your verbal "Yes" so it can be used or sold to falsify credit card, utility bill, or phone bill transactions or even worse to open fraudulent accounts. Scammers already had your name and phone number and probably had other information like your address, credit card numbers, and/or checking account numbers. **So what do I do?** Check billing statements like your phone and cable bill to eliminate the possibility of any fraudulent charges or changes. Also, check your bank and credit card transactions to ensure there have not been any fraudulent charges. If something appears out of the ordinary do not be afraid to dispute it. Ask for proof. Be prepared, as the victim, to dispute these charges. Companies are going to try to prove you agreed because they have your recorded voice saying, "Yes." The Federal Trade Commission is responsible for disputing any unauthorized credit card transactions and the Federal Communications Commission will handle any fraudulent charges on your phone bill.

The Smithfield Police Department is committed to improving safety and security in our community by offering complimentary security and safety assessments for Smithfield businesses and residents. These are conducted by certified Crime Prevention Specialist and, if requested, they will visit your business or residence and evaluate interior and exterior security protocols, landscapes, and environment. Afterwards, the Crime Prevention Specialist will make recommendations to improve your security and reduce the opportunity of a crime from occurring. To make an appointment for a free security and safety assessment, contact the Crime Prevention Unit at 757-357-3247.
