CERTIFIED PUBLIC ACCOUNTANTS

Independent Auditors' Report

To the Honorable Members of
the Town Council
Town of Smithfield, Virginia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the Town of Smithfield, Virginia, as of and for the year June 30, 2017, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund, of the Town of Smithfield, Virginia, as of June 30, 2017, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and schedules related to pension funding on pages 3-16 and 71-73 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Smithfield, Virginia's basic financial statements. The supporting schedules and other statistical information, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supporting schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the individual fund financial statements and supporting schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The other statistical information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 22, 2017, on our consideration of Town of Smithfield, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Town of Smithfield, Virginia's internal control over financial reporting and compliance.

*Management's Discussion and Analysis
Fiscal Year July 1, 2016 - June 30, 2017*

The following discussion provides an overview and analysis of the Town of Smithfield, Virginia's (Town's) financial activities for the fiscal year ended June 30, 2017. This information should be read in conjunction with the Town's audited financial statements as reported herein.

FINANCIAL HIGHLIGHTS

- The net position of the Town increased by \$559,038 which represents a 1.19% increase over FY2016 (total net position-government-wide).
- The Town began construction of a public sports complex on property that was purchased in FY2016. The Town spent \$2,766,323 on the project in FY2017 of which \$2,453,167 was offset by private contributions.
- The Town continued its commitment to the Pinewood Heights CDBG Relocation project with the purchase of 12 properties and the relocation of 8 households in Phase III.
- New debt of \$3,030,447 was incurred through a non-revolving line of credit that was used for multiple capital projects throughout the Town including upgrading the water main on Main Street, construction of the public sports complex, and restoration work at Windsor Castle Park.

Overview of the Financial Statements

This discussion and analysis serves as an introduction to the Town's basic financial statements. These basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required and other supplementary information in addition to the basic financial statements.

The Town is required to comply with the Governmental Accounting Standards Board (GASB) Statement No. 34. The implementation of GASB 34 changed the accounting and presentation of the financial statements to include government-wide financial statements that report both long-term and short-term information about the Town's overall financial standing.

Government-wide financial statements

The *Government-Wide Financial Statements* provide an overview of the Town's financial position as a whole in a manner similar to private-sector businesses. Government-wide financial reporting consists of two statements: the Statement of Net Position and the Statement of Activities.

The Statement of Net Position presents information on the Town's assets, deferred outflows or resources and liabilities and deferred inflows of resources. The difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources is reported as net position. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating. Other factors, such as a change in property tax base and infrastructure needs resulting from development or annexation, should also be included in a comprehensive assessment of the Town's position.

The Statement of Activities presents information showing how net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying events giving rise to the changes occur, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

FINANCIAL HIGHLIGHTS (CONTINUED)

Government-wide financial statements (Continued)

The Statement of Net Position and the Statement of Activities include the following:

- **Governmental activities** - The governmental activities of the Town include general government, public safety, public works, public buildings, community development, and recreation and cultural. Most of these activities are primarily financed by property taxes, other local taxes, and licenses and permit fees.
- **Business-type activities** - The business-type activities of the Town include a Water Fund and a Sewer Fund. These funds are supported by charges for services based on use. The current rate structure also includes a fixed bi-monthly fee per meter to offset the annual debt service payments incurred to fund a new water treatment plant.

Fund Financial Statements

Fund accounting is used to maintain control over resources that have been segregated for specific functions. Governments use fund accounting to ensure and demonstrate finance-related legal compliance. The funds of the Town are divided into two categories: governmental funds and propriety funds.

Governmental Funds - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as on the balances of spendable resources available at fiscal year end. Such information may be useful in evaluating a government's near-term financing requirements.

Because the governmental funds statements present a more current focus than the information in the government-wide financial statements, a comparison between the two statements is a valuable tool for readers to understand the possible long-term impact of the government's recent financing decisions. Reconciliations of the governmental funds balance sheet and statement of revenues, expenditures, and changes are shown in Exhibits 4 and 6 on pages 21 and 23 to compare governmental funds to governmental activities.

Proprietary Funds - The Town maintains only one type of proprietary fund, which is the enterprise fund. Enterprise funds provide both long-term and short-term information on business type activities in the government-wide financial statements. They show similar, but more detailed, information on the fund financial statements. The Town uses enterprise funds to account for its water and sewer operations.

Notes to the Financial Statements - The notes provide additional information and explanations that are essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found at the end of the basic financial statements section of this report.

Supplementary Information - In addition to the basic financial statements and accompanying notes, this report also contains schedules of budget comparisons, pension funding progress, supporting schedules and other statistical information found on pages 69 through 99.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Town of Smithfield, Virginia
Summary of Net Position
As of June 30, 2017

	Governmental Activities		Business-type Activities		Total	
	2017	2016	2017	2016	2017	2016
Current and other assets	\$ 11,311,023	11,186,382	\$ 6,150,947	\$ 5,797,176	\$ 17,461,970	\$ 16,983,558
Capital assets	24,524,977	22,020,121	15,114,886	15,023,743	39,639,863	37,043,864
Total assets	\$ 35,836,000	\$ 33,206,503	\$ 21,265,833	\$ 20,820,919	\$ 57,101,833	\$ 54,027,422
Deferred outflows of resources	\$ 311,057	\$ 145,900	\$ 102,163	\$ 68,088	\$ 413,220	\$ 213,988
Long-term liabilities outstanding	\$ 3,707,072	\$ 1,125,008	\$ 3,042,089	\$ 3,071,766	\$ 6,749,161	\$ 4,196,774
Other liabilities	1,146,801	818,477	229,094	225,291	1,375,895	1,043,768
Total liabilities	\$ 4,853,873	\$ 1,943,485	\$ 3,271,183	\$ 3,297,057	\$ 8,125,056	\$ 5,240,542
Deferred inflows of resources	\$ 1,783,439	\$ 1,919,989	\$ 5,759	\$ 39,118	\$ 1,789,198	\$ 1,959,107
Net position:						
Net investment in capital assets	\$ 21,015,145	\$ 21,084,936	\$ 12,510,829	\$ 12,022,648	\$ 33,525,974	\$ 33,107,584
Restricted	1,258,418	1,896,404	2,764,024	2,261,716	4,022,442	4,158,120
Unrestricted	7,236,182	6,507,589	2,816,201	3,268,468	10,052,383	9,776,057
Total net position	\$ 29,509,745	\$ 29,488,929	\$ 18,091,054	\$ 17,552,832	\$ 47,600,799	\$ 47,041,761

The combined net position for the Town totals \$47,600,799, an increase of 1.19% over FY2016. The largest portion (70%) represents investments in capital assets, net of related debt used to finance the assets. These capital assets include land, buildings, machinery, and equipment. They are used to provide services to citizens, thus, they are not available for future spending. This net investment increased by only \$53,390 in FY2017 largely due to the incurrence of additional debt of \$3,030,447 to offset new construction and infrastructure upgrades. Restricted assets of \$4,022,442 comprise 8% of total net position and dropped by \$135,678 (-3%) over prior year resulting from a decrease of \$637,986 in governmental activities that was offset by an increase of \$502,308 in business activities. The restricted assets for governmental activities total of \$1,258,418 represents donated and/or designated funds specifically for the Pinewood Heights Redevelopment Project, the Smithfield Police Department, the developing sports complex, SNAP (Supplemental Nutrition Assistance Program), and highway maintenance. The FY2017 decrease occurred as restricted funds were applied to the construction of the sports complex. The business-type activities total of \$2,764,024 includes its debt service, water deposit, and sewer compliance escrow funds. The debt service fund has been in place since FY2005 and is used to fund the debt obligation for the Town's newest water storage tank finished in FY2011 and the water treatment plant (RO) that was completed in FY2012. Utility deposits were added to the Town Code in FY2014 to reduce the Town's losses from unpaid bills. The sewer compliance fee was adopted on August 4, 2009 to fund expenses resulting from the regional sanitary sewer consent order. The consent order is an ongoing project that has progressed from its initial implementation phase to now include "find and fix" projects on an annual basis. Unrestricted funds of \$10,417,383 make up 22% of total net position and increased by \$641,326 (7%) from prior year. Included in this category for governmental activities are unrestricted investments that may be used to meet the Town's ongoing financial needs. Water and sewer capital escrow funds and development escrow funds are also categorized as unrestricted and are made up of availability fees and pro-rata share fees collected prior to construction that may be used to repair or replace existing infrastructure as well as offset capital expenses related to new growth when needed.

GOVERNMENT-WIDE FINANCIAL ANALYSIS (CONTINUED)

Governmental Activities. The following table shows a detailed summary of the revenues and expenses for governmental and business-type activities for 2017 as compared to 2016:

Town of Smithfield, Virginia
Changes in Net Position
As of June 30, 2017

Net position-end of year	<u>\$ 29,509,745</u>	<u>\$ 29,488,929</u>	<u>\$ 18,091,054</u>	<u>\$ 17,552,832</u>	<u>\$ 47,600,799</u>	<u>\$ 47,041,761</u>

GOVERNMENT-WIDE FINANCIAL ANALYSIS (CONTINUED)

Program revenues for governmental activities make up 30% of total revenues and are comprised of charges for services, operating grants and contributions, and capital grants and contributions. Charges for governmental activities services (3%) include permits, review fees, and fines and forfeitures. Charges for services increased marginally by \$6,230 over prior year. Decreases in fines and costs (-\$5,584), right-of-way/easement permits (-\$2,820), and land disturbance permits (-\$3,000) were offset by increases in zoning permits (\$2,520), demolition permits (\$5,571), inspection fees (\$7,950), and E&S fees (\$1,500). Operating grants and contributions of \$1,862,264 (64%) increased \$556,299 from prior year and consist of state highway maintenance funds (\$1,169,688), public safety grants (\$195,629), community development grants (\$497,215), cultural grants (\$5,000), and miscellaneous administrative and other grants (-\$5,268). The annual state highway maintenance funds increased \$65,664 (6%) from FY2016 and were used to maintain street surfaces, manage storm water ditching and drainage, and support highway safety and beautification. Included in the public safety grants are annual 599 funds from the state in the amount of \$166,736 to supplement the cost of law enforcement, a bullet proof vest grant (\$393), a TRIAD grant (\$2,250), and a fire programs grant that is passed through to the Smithfield Volunteer Fire Department (\$26,250). The community development operating grant represents the reimbursable portion of the Pinewood CDBG Redevelopment Project. The negative value in miscellaneous administrative and other grants resulted from a prior year grant receivable from the Virginia Department of Conservation and Recreation (DCR) that was reversed after determining that the grant would not be funded. The most significant change in program revenues occurred in capital grants and contributions which decreased \$2,598,549 from \$3,555,770 in FY2016 to \$957,221 in FY2017. In FY2016, the Town recorded significant contributions specifically designated for the planned public sports complex with donations received from Mr. Joseph W. Luter III (\$2,000,000), Smithfield Foods (\$500,000), and Farmers Bank (\$25,000). Although additional contributions were received for the complex in FY2017, the total of \$890,000 was \$1,635,000 less than prior year. Those contributions were received from Smithfield Foods (\$500,000), Farmers Bank (\$150,000), and the Luter Family Foundation (\$240,000). In addition, the Town incurred \$24,000 in capital grant reimbursements from the Virginia Department of Housing and Community Development compared to \$635,740 in prior year. This resulted from a reclassification of those grant funds recorded in FY2017 (\$521,185) between operating grants (\$497,215) and capital grants (\$24,000) whereas all of FY2016 grant funds (\$635,740) were classified as capital.

The largest revenue source for the Town has always been general property taxes although meals taxes (included with Other Local Taxes) now exceeds personal property taxes and is almost level with real estate collections.

	Governmental Activities	
	<u>2017</u>	<u>2016</u>
Real estate tax revenue	\$ 1,729,971	\$ 1,767,414
Public Service corporation property taxes	31,029	30,601
Personal Property taxes	479,603	594,212
Penalties and interest	<u>3,581</u>	<u>39,905</u>
Total	<u>\$ 2,244,184</u>	<u>\$ 2,432,132</u>

Tax assessments for the Town are received from the Isle of Wight County Commissioner of Revenue. Real estate and personal property assessments for FY2017 totaled \$1,098,079,600 and \$120,444,178 respectively, excluding any subsequent supplements and abatements, compared to \$1,093,031,664 and \$163,124,755 for FY2016. FY2017 was not a reassessment year so assessment changes were related to new construction and demolition or modifications to existing structures. Regarding personal property, the assessment methodology for machinery and tools was adjusted by the Isle of Wight Commissioner of the Revenue that reduced assessed values by 40%. This adjustment was retroactive for fiscal years 2013, 2014, and 2015. The town increased its machinery and tools tax rate from \$0.15 per \$100 assessed to \$0.375 per \$100 assessed to offset the reduction. Refunds processed for years 2013 through 2015, however, did impact total personal property receipts for FY2017. A contribution was made by Isle of Wight County in the amount of \$214,204 to offset this loss of revenue and is reflected under grants and contributions not restricted to specific programs.

GOVERNMENT-WIDE FINANCIAL ANALYSIS (CONTINUED)

Other local taxes increased 6% for the year and include transient occupancy taxes, sales taxes, cigarette taxes, meals taxes, franchise taxes, consumers' utility taxes, business license taxes, and vehicle license taxes. Increases were balanced by several offsetting decreases, but the significant rise in meals taxes accounted for the overall increase for the year. Meals tax revenues of \$1,711,204 increased \$129,491 over FY2016's total of \$1,581,713. Town Council voted on August 2, 2016 to increase the meals tax rate from 6% to 6.25%. The Town continues to dedicate 32% of its meals tax revenues (\$550,627) to the Pinewood Heights Redevelopment Project to fund its portion of required leverage. Transient occupancy taxes increased \$27,808 (16%) as 2nd, 3rd and 4th quarters all reflected higher revenues than FY2016. Sales tax revenues of \$367,527 increased by \$36,629 (11%) and replaced FY2016 as the highest sales tax revenues recorded by the Town to date. Cigarette taxes totaled \$183,973 which was a slight decrease of \$703 over prior year. This tax typically fluctuates from year to year as revenues are recognized when tax stamps are sold to wholesalers who buy in bulk. Bank franchise taxes decreased in FY2017 by \$2,724 compared to an increase of \$7,605 in the prior year. The FY2016 increase was misleading because FY2015 included a refund to one banking institution in the amount of \$20,171 as directed by the state for overpayment in 3 prior years. Consumers' utility taxes decreased \$6,427 (3%), which was one of the largest decreases to date in this category. Utility taxes are imposed and levied monthly on each purchase of natural gas or electricity delivered to consumers. Business license taxes decreased from \$390,371 in FY2016 to \$382,146 in FY2017, a drop of \$8,225 (2%). Revenues were still very strong for the year even after accounting for the decrease. Vehicles license taxes are billed at the same time as personal property taxes at a fee of \$20 per qualified vehicle. This tax increased from \$134,197 in FY2016 to \$152,416 in FY2017. At \$20 per vehicle, this increase of \$18,219 is noteworthy.

Unrestricted revenue from use of money and property represents interest income, lease income, property rental income, event rental income, and special events labor reimbursement. Revenues in this category decreased \$36,539 from FY2016. Smithfield Center rentals (which includes Windsor Castle Park events) dropped by \$41,267 marking its first dip in several years. The decline may be attributed partially to the renovation work underway at Windsor Castle, but the rate structure was consequently re-evaluated and Town Council approved a price adjustment at its April 4, 2017 meeting. Interest revenue decreased by \$2,752 in FY2017 as contributed funds for the sports complex were removed from escrow and applied to the project. Special events revenues increased \$7,135 and reflect reimbursement to the Town for police and public works assistance during events held by organizations not directly sponsored by the Town.

Miscellaneous revenues for FY2016 totaled \$117,471 and are made up of insurance proceeds, sale of copies, returned check charges, accident report fees, wellness and safety grants, fingerprinting, grass cutting reimbursements for yard violations, capital credit refunds, museum gift shop sales and program/lecture fees, and contributions from citizens, businesses, and non-profit organizations. Contributions for Windsor Castle (\$44,000) comprised 37% of this category for FY2017 and included \$10,000 from the Windsor Castle Park Foundation as partial reimbursement for a natural playscape installation and \$34,000 from Smithfield VA Events to be dedicated for future capital needs to enhance and preserve the park. Donations of \$12,118 for the Isle of Wight Museum in lieu of an admission fee, \$1,583 for purchase of defibrillators for the police department, and \$8,259 for CHIP (Community Help In Progress) sponsored by the Smithfield Police Department rounded out the contributions for the year. The Town also received \$27,082 in insurance reimbursements from its provider, the Virginia Municipal League (VML) for claims pertaining to damages to town vehicles and public property. In addition to contributions, the Museum also brought in revenues of \$14,626 from gift shop sales (\$12,986) and programs and lecture fees (\$1,640).

Grant contributions not restricted to specific programs include the state's annual personal property tax relief contribution, communications tax allocations, rolling stock, mobile home tax, and short term rental taxes. For FY2017, this category also includes a contribution from Isle of Wight County that reimbursed the Town \$214,204 for refunds to taxpayers due to machinery and tools tax assessment changes for fiscal years 2013 through 2015. The personal property tax relief of \$240,795 is a fixed amount that is received from the Commonwealth of Virginia in August of every year. Communications taxes are collected by the state as well and then allocated to each locality based on a percentage that was calculated when the tax was removed from the local level and redirected to the state. Revenues vary depending upon taxes collected and deductions applied by the state. Communications taxes of \$223,420 for FY2017 decreased \$5,630 from FY2016 marking a decline for the fourth consecutive year. Rolling stock, mobile home tax, and short term rental tax collectively totaled \$3,937 that was consistent with the prior year total of \$3,826.

GOVERNMENT-WIDE FINANCIAL ANALYSIS (CONTINUED)

Gain on disposal of assets of \$6,268 includes the sale of two zero turn mowers, a 1999 Police Crown Victoria, and a 1997 Ford F250 4WD in addition to various small items.

Total expenditures for FY2017 governmental activities totaled \$9,556,605 compared to \$8,046,119 for FY2016, an increase of \$1,510,486 (19%). These expenses are categorized as general government administration, public safety, public works, parks, recreation, and culture, community development, and interest on long term debt. General government expenditures increased \$118,701 over FY2016. The majority of that increase resulted from an increase in salaries and benefits due to a 5% cost of living increase for all employees, a mandatory 1% increase required for VRS (Virginia Retirement System) Plan 1 employees, and a plan year increase of 11.54% for medical premiums. Also, a new Human Resources Director position was added in September 2016 to strengthen the town's management of personnel practices. The mandatory VRS increase has been in place since FY2013 with the express purpose of shifting the required 5% employee retirement contributions from the Town to its employees. Previously, the Town, consistent with most localities across the state, had paid the employees' 5% in addition to its own required contributions. The Town opted to spread the increase over a 5 year period (1% each year) and finally reached that threshold in FY2017. Public safety and public works (including highway maintenance) are the largest cost centers and accounted for 52% of total costs compared to 60% for FY2016. Public safety increased by \$105,639 from the prior year with account increases in labor and benefits and E911 dispatch services. The Town's annual E911 contribution to Isle of Wight County for central dispatch increased by \$45,669 although still \$54,451 below budget. Savings in equipment (-\$7,592) and computer and technology equipment (-\$7,487) offset an increase to travel and training (\$9,960). Public Works ended the fiscal year with a slight reduction in costs (-\$1,458) as it remained virtually flat from prior year. Salaries and benefits did increase with raises and insurance increases as noted in other departments; however, there was a significant decrease that offset those increases. Notably, the Public Works departmental expenses included \$100,000 in FY2016 for a contribution to Isle of Wight County for sidewalks on Great Springs Road within the Town limits. That was a one- time expense that was not reflected in FY2017. The Town's highway expenses increased by \$37,537 from prior year as the Town spent state grant funding allocated for the maintenance of its street system. Parks, recreation, and culture reflected an increase in expenditures of \$522,351 largely because of the Town's contribution to the Windsor Castle Park Foundation (\$520,000) for its renovation project of the manor house and outbuildings. Community Development reflected the largest increase for the fiscal year (\$759,177) as a result of progress made in Phase III-MY1 of the Pinewood Heights Redevelopment Project (\$538,507) and the satisfaction of an economic development incentive (\$205,000) with a local business. The Town acquired 12 properties and relocated 8 households in Pinewood Heights during the fiscal year. Interest on long-term debt increased \$6,076 as the Town utilized a non-revolving line of credit to fund multiple capital projects throughout the year.

GOVERNMENT-WIDE FINANCIAL ANALYSIS (CONTINUED)

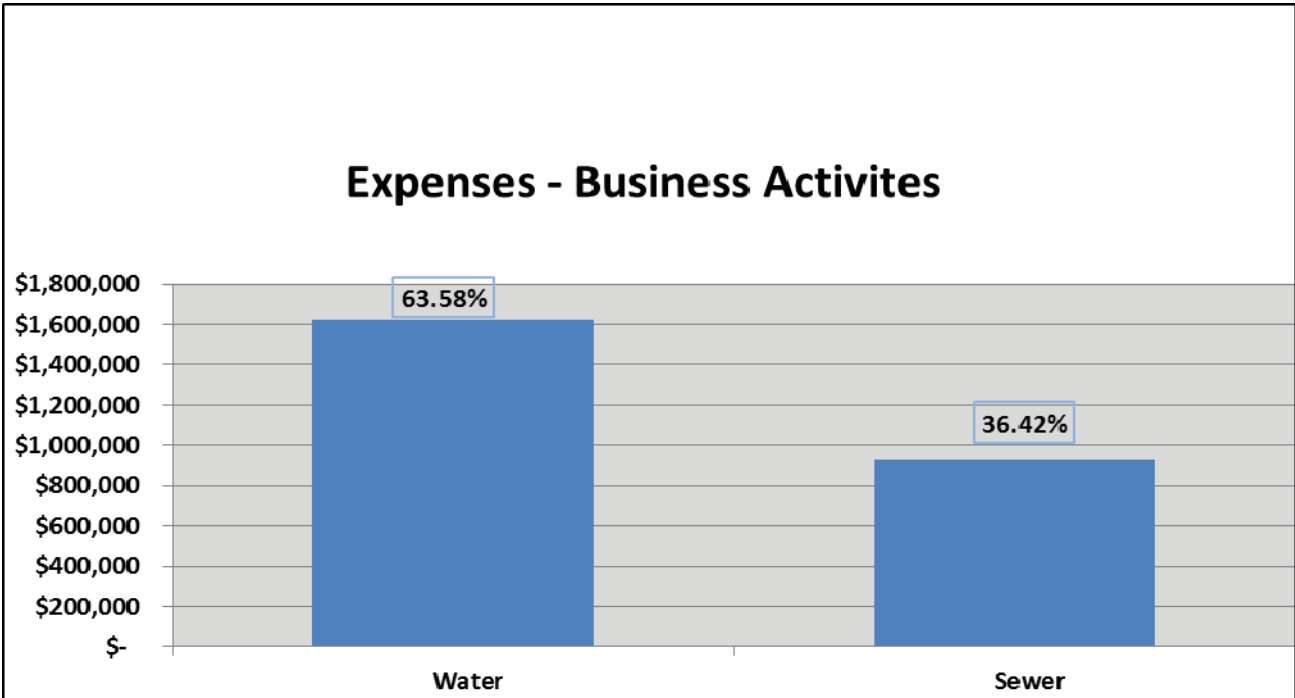

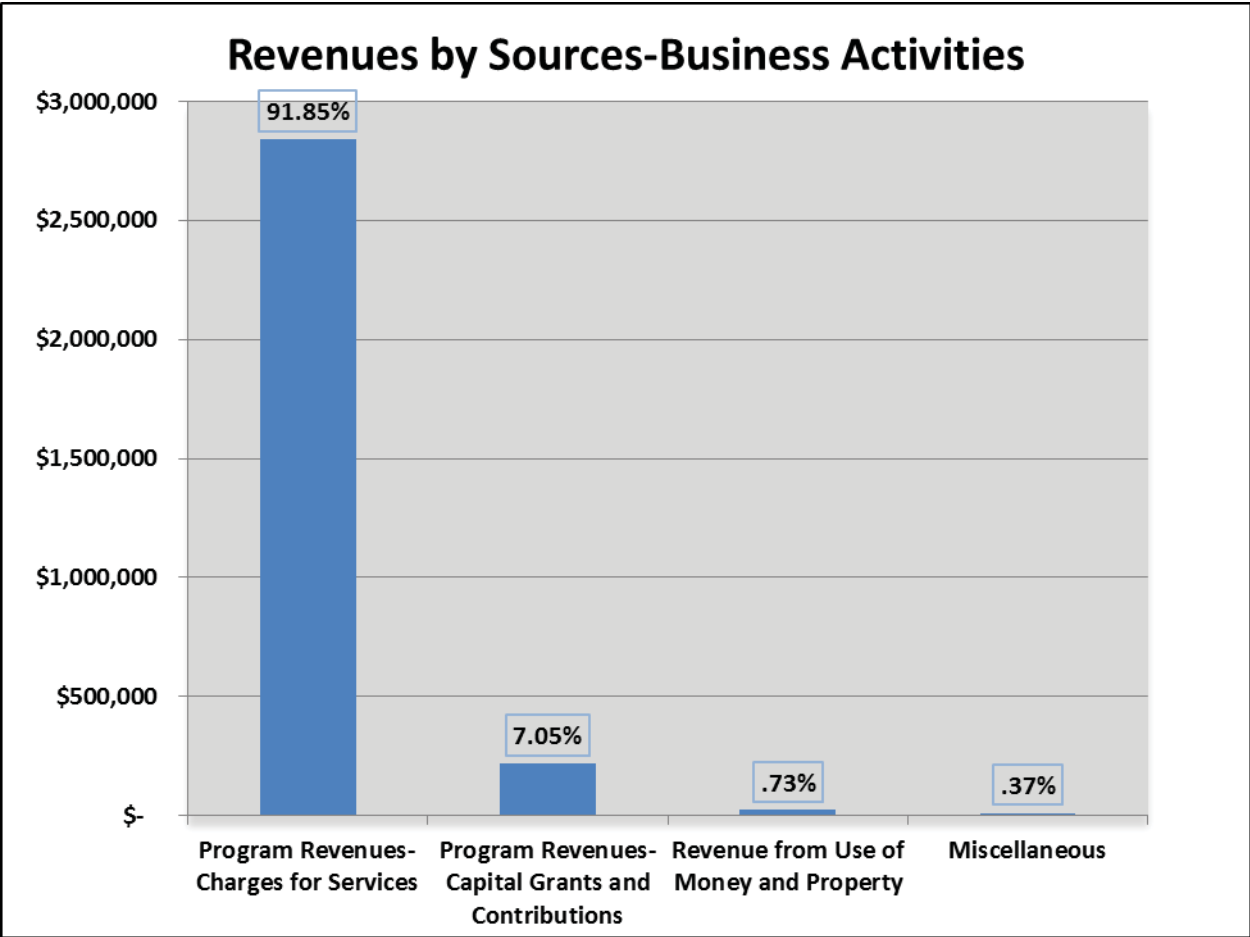

GOVERNMENT-WIDE FINANCIAL ANALYSIS (CONTINUED)

Business-Type Activities. The business-type activities show an increase in net position of \$538,222 for FY2017 compared to FY2016. Program revenues include charges for services that increased by \$47,374 and capital grants and contributions that increased by \$67,396. Included in charges for services are utility charges, bulk water sales, debt service fees, sewer compliance fees, and connection fees. Water and sewer consumption remained fairly flat resulting in a revenue increase of only \$21,075. All of the increase was in the sewer fund (\$21,157) with a slight loss in water (-\$82). The water fund dropped \$13,783 from its two Gatling Pointe accounts that are billed to Isle of Wight County at an adjusted rate of \$6.10 per 1,000 gallons. This rate was reduced from \$6.41 as of July 1, 2016 as part of the Water and Sewer Services Agreement between the Town of Smithfield and Isle of Wight County. Connection fees increased \$17,870 from prior year and reflected the installation of 27 residential meters (5/8") as compared to 18 residential meters and 1 commercial meter (3/4") in FY2016. Debt service fees and sewer compliance fees reflected a slight combined increase for the year (\$8,430). They are fixed costs that are not driven by consumption, however, and therefore tend to remain stable unless there is a fluctuation in the number of active accounts. Capital Grants and Contributions increased \$67,396 for the year and include availability fees, pro-rata share fees and contributed revenue. Like connection fees, availability fees are tied directly to growth and are generally collected at the same time as connection fees. Availability fees increased from \$133,800 in FY2016 to \$177,840 in FY2017 as 9 more residential meters were installed. Availability fees are deposited into the Water and Sewer Capital Escrow Funds and are used for capital maintenance on existing infrastructure and to finance new infrastructure when needed. Pro-rata share fees increased significantly from \$4,800 last year to \$40,000 in the current year. These fees are paid by developers at the time that plats are recorded and are assessed at \$800 for water and \$800 for sewer per lot. Pro-rata share fees are designated for capital expenditures resulting from new growth and are deposited in the Water and Sewer Development Escrow Funds. In FY2016, the Town also received \$11,843 in contributed revenue from Smithfield Foods as reimbursement for a loan that was incurred in 1996 to finance a pump station critical to their operations. That loan matured on November 1, 2015 and the agreement with Smithfield Foods was satisfied in full by fiscal year end. Included in general revenues for water and sewer are unrestricted revenues from the use of money and property (interest income) and miscellaneous revenues. Interest income increased slightly (\$5,415) while miscellaneous revenues of \$11,539 decreased by \$15,254 from FY2016. Miscellaneous revenues represent application fees for water service (\$9,595), returned check charges (\$100), sale of inventory items to contractors (\$1,208) and scrap metal sales (\$636). The Town did not receive insurance proceeds in FY2017 which accounts for the decrease from prior year as \$15,405 was collected in FY2016 as reimbursement for repairs to the Reverse Osmosis (RO) plant due to lightning damage.

Utility expenses increased \$45,128 for the year with water increasing \$87,667 and sewer decreasing \$42,539. The water fund recorded increases in salaries and benefits (\$85,347) due to the 5% cost of living increase and the 1% VRS Phase-In as well as the 11.54% increase in medical premiums as detailed in the general fund. The water fund also recorded increases in materials and supplies (\$26,590) and interest expense (\$36,943). These increases were offset by decreases in water tank maintenance (-\$26,181), professional services (-\$17,589), and Reverse Osmosis Plant (RO) expenses (-\$16,334). The Town did not incur any cost for water tank maintenance in FY2017 although tank maintenance will be addressed in future years. The decrease in professional fees resulted from reduced billings from the Town's contracted engineering firm, Kimley-Horn, specifically regarding alternative discharge analysis for the RO plant. RO expenses decreased as well due to a drop in HRSD wastewater treatment charges of \$15,635. Although the cost per CCF increased from \$4.13/CCF to \$4.51/CCF, usage decreased from 45,367,188 in FY2016 to 38,951,492 in FY2017.

The Town's current utility rate structure is based on "usage only" with some fixed costs added to address sewer compliance and water debt service expenses. The Town's current sewer rate was adopted as of January 1, 2012 and is billed at \$3.50 per 1,000 gallons used. In addition, a fixed cost of \$24.14 is added to each bi-monthly bill for sewer compliance expenses. On July 1, 2013, the Town Council approved a water rate of \$5.68 per 1,000 gallons used and a fixed bi-monthly debt service fee of \$8.95. The only exception to this rate is the blended rate charged to Isle of Wight County (\$6.10) in lieu of a separate usage rate and debt service fee. Consumption and utility revenues are presented to the finance committee each month with the financial statements to ensure that revenues are sufficient to meet both operating and capital needs.

FINANCIAL ANALYSIS OF THE TOWN'S FUNDS

The Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The Town's governmental funds relay information on current sources and uses of spendable resources, as well as on the balances of spendable resources available at fiscal year end. The fund balances of total governmental funds equaled \$7,810,935 for FY2017, of which \$47,593 is nonspendable, \$1,245,015 is committed, \$1,258,417 is restricted, \$8,108 is assigned and \$5,251,801 is unassigned. This was a 4% increase from FY2016's total fund balance of \$7,527,039. Of that balance, \$5,331,092 was unassigned.

General Fund. The general fund is the Town's primary operating fund for all governmental activities. Total fund balances for FY2017 equal \$7,661,218 and are made up of nonspendable fund balance of \$47,593, committed fund balance of \$1,245,015, restricted fund balance of \$1,116,809, and unassigned fund balance of \$5,251,801. The restricted fund balance was \$1,800,803 in FY2016. In FY2017, the Town received cash contributions of \$890,000 that were added to the prior year contribution balance of \$1,665,156 for construction of its new public sports complex. By June 30, 2017, only \$961,833 of those funds remained for completion of the project.

Highway Maintenance Fund. The highway maintenance fund is used to track receipts from the Commonwealth of Virginia that are specifically designated for road maintenance and to identify allowable expenses that may be charged against state revenue. Assigned fund balance for FY2017 totaled \$141,609 which is an increase from a total fund balance of \$95,601 in FY2016. Ideally, the fund balance of highway maintenance should be small because grant funds from the state should be expensed in the same year they are allocated.

Capital Projects Fund. The capital projects fund for FY2004 specifically detailed grant activity for a community development block grant in the Rising Star community of the Town. Financial activity for this grant began in FY2000 and was completed in FY2004, but the Town continued to collect program revenue from residents who benefited from the Rising Star rehabilitation through FY2007. The balance of program revenues collected (\$8,151) remains in the Town's capital projects fund until a decision is made on its disposition.

Proprietary Funds. The Town's only proprietary funds are its water and sewer funds which provide the same type of information included in the government-wide financial statements but in more detail. As of 2017, the total assets of the proprietary funds equaled \$22,494,044 which is a 1.8% increase over FY2016. Current assets decreased \$90,220 from prior year as intercompany balances were paid down from the sewer fund, but restricted assets increased \$472,458 as sewer compliance spending was limited to "find and fix" projects rather than task based engineering fees. Total capital assets increased by \$91,143 as accumulated depreciation increased by \$680,994 but was offset by an increase of \$772,137 in gross asset value. A net pension asset of \$123,072 was also recorded as required by GASB 68 Accounting and Financial Reporting for Pensions; however, the value dropped \$64,538 from FY2016.

GENERAL FUND BUDGETARY HIGHLIGHTS

The Town's FY2017 budget was adopted by Town Council at a special meeting held on June 27, 2016. It was appropriated at the July 5, 2016 Town Council meeting. An amended budget was presented and adopted on June 6, 2017. The amended budget reflected a decrease of \$2,252,267 (-13.79%) including reserves over the previously adopted budget. The large decrease resulted from reassessment of progress on several large projects as well as tax refunds required by an assessment change. Specifically, budgeted general property revenues decreased \$187,058, grants from the federal government decreased \$245,815, line of credit proceeds decreased \$1,192,278, and use of reserve funds decreased by \$1,674,508. These decreases were offset by increases in contributions of \$827,786 and state highway funds of \$174,383. The drop in general property taxes resulted from a change in assessment methodology for machinery and tools as determined by the Isle of Wight Commissioner of the Revenue. The change resulted in a 40% reduction in value for fiscal years 2013 through 2016. The Town had not yet billed for 2016, so the tax rate was adjusted from \$0.15 per \$100 to \$0.375 per \$100 to neutralize the impact; however, the Town did have to refund \$174,886 in tax principal and an associated \$39,318 in interest for a total of \$214,204 for years 2013 through 2015. Revenues from the federal government decreased by \$245,815 as a grant from the Department of Recreation and Conservation (DCR) in the amount of

GENERAL FUND BUDGETARY HIGHLIGHTS (CONTINUED)

\$252,815 was removed from the 2017 budget due to delays in the project to build a public boat ramp. Also included in revenues from the federal government is the Pinewood Heights CDBG Redevelopment Project. Phase III was budgeted for completion in FY2017, however, activity slowed down in the last month of the fiscal year leaving the Town unable to draw \$183,075 of the \$704,260 budgeted for reimbursement. The town also budgeted for two different lines of credit in FY2017. The first was a \$500,000 line with TowneBank to be used exclusively for the Pinewood Heights Redevelopment Project. The budget was reduced to \$250,000 as the year progressed, but ultimately the Town did not utilize the line at all during FY2017 as the meals tax revenues designated for the project were sufficient to cover costs. The second line was a \$5,000,000 non-recurring line with Farmers Bank that was utilized for multiple projects including the public sports complex and the Town's required contribution of \$2,000,000 to the Windsor Castle Park restoration project. The Town determined that a portion of the line for the sports complex and the Windsor Castle Park project would carry forward into FY2018 so the budget for credit line proceeds was reduced from \$3,597,725 to \$2,665,447 in FY2017. Reserve funds were designated for use in the sports complex, and the Town initially expected to utilize \$450,213 in operating funds to balance the 2017 budget. The budget for reserves for the sports complex was based on contributions received for the project in FY2016. The budget was reduced from \$3,025,000 to \$1,445,697 as the project continued into FY2018. Also, revenues were strong enough that operating reserves were removed from the amended budget. Contributions increased by \$827,786 to reflect the reimbursement from Isle of Wight County for the machinery and tools tax reimbursement (\$214,204), additional contributions for the public sports complex (\$600,000), and a contribution from the Windsor Castle Park Foundation (\$10,000) to offset a portion of costs for the natural playscape installation. Finally, budgeted road maintenance funds were increased by \$174,383 to reflect an increase in state funding (\$69,864) and a carry forward of grant funds remaining from FY2016 (\$104,519).

Total budgeted departmental operating expenses for FY2017 increased by \$314,537 (3.78%) with all departments showing a decrease except for Community Development and Parks, Recreation, and Cultural. The budget for Community Development increased from \$2,026,800 to \$2,156,488, an increase of \$129,688 (6.4%). This budgeted increase was made to account for the remaining portion of Phase III of the Pinewood Heights Redevelopment Project. As progress slowed, however, the Town did not even exceed its original budget of \$1,671,847, spending only \$1,316,167 for the year. The budget increase for Parks, Recreation, and Cultural was more significant at \$521,497. This increase resulted from a reclassification of the Town's commitment to the Windsor Castle Park Restoration Project from capital outlay to a contribution once it was determined that the Windsor Castle Park Foundation would manage the project. The budget for debt service was reduced by \$283,750 as the Town reduced its projected TowneBank line of credit repayment from \$500,000 to \$250,000. As noted under revenues, the Town did not utilize the line in FY2017 therefore requiring no repayment. Budgeted capital outlay decreased \$2,844,537 (-50.11%) with the largest decrease in Parks, Recreation, and Cultural (-\$2,988,745) as the construction of the public boat ramp was removed from the budget (-\$252,000), the Town's commitment to the Windsor Castle Park Renovation Project was reclassified to operating expense as a contribution (-\$1,992,500) and the budget for the public sports complex was reduced for FY2017 and rolled forward into FY2018 (-\$744,245). Also, the Town only contributed \$520,000 of the original \$1,992,500 budgeted for the Windsor Castle Restoration Project with the remainder to be paid in FY2018. Although not as significant, Public Safety capital did reflect an increase of \$92,000 as 2 motorcycles and 1 vehicle budgeted for FY2016 were not received before year end and were subsequently added to the FY2017 budget. Finally, road maintenance budget expenditures were increased by \$174,383 to account for the increase in allowable grant funds for FY2017 (\$69,864) and the carry forward of remaining FY2016 funds (\$104,519) to be spent in FY2017.

PROPRIETARY FUND BUDGETARY HIGHLIGHTS

The budget for proprietary funds was revised during FY2017 to reflect a net income of \$213,299 after contributions compared to the original budgeted income of \$52,127. Budgeted operating revenues decreased by \$34,017 (-1.20%) because water billings were tracking below budget due to a drop in billings for the Gatling Pointe development. Fortunately, both water and sewer billings slightly exceeded amended budget with water over by \$16,550 and sewer over by \$11,697 as consumption leveled off throughout the year.

PROPRIETARY FUND BUDGETARY HIGHLIGHTS (CONTINUED)

Budgetary operating expenses also decreased by \$152,124 (-7.02%) with \$150,550 attributable to water (-9.93%) and \$1,574 to sewer (-0.24%). The majority of the budgeted change in water is attributable to a decrease in maintenance and repairs (-\$35,000), water tank maintenance (-\$100,000), and HRSD sewer maintenance costs (-\$21,047). The budget for maintenance and repairs decreased as the majority of repairs for the year were capitalized. This line item was still \$5,364 under budget after the budget decrease. The original budget for water tank maintenance was \$100,000, but cancelation of a vendor contract in FY2016 resulted in no charges for the Town in FY2017. The Town issued an invitation for bids in FY2016 but ultimately rejected the one bid received and elected to seek competitive bidding as needed for each tank. The budgeted HRSD charges for sewer treatment due to discharge from the reverse osmosis plant were reduced as usage dropped by 6,415,696 gallons saving the Town \$15,635 over prior year. Depreciation expenses were not adjusted during the year, but water was under budget by \$32,780 and sewer was under budget by \$32,781 as capital outlay expenses were under budget for both funds. The budget for non-operating revenues and expenses was increased by \$43,065 which included increases for pro-rata share fees (\$35,200) and interest revenue (\$6,700) with a slight decrease in interest expense for water (-\$1,165). The Town received pro-rata share fees of \$40,000 (\$20,000 each for water and sewer) which represents payment of \$1600 per lot on 25 lots. Pro-rata share fees are paid at the time that plats are recorded and are indicative of new development.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets. As of FY2017, the Town’s investment in capital assets for its governmental and business-type activities totaled \$39,639,836 net of accumulated depreciation. This is an increase of \$2,595,972 from FY2016. Of this total, \$2,504,856 originated from an increase in governmental activities with a slight increase in business-type activities of \$91,143. The increase in governmental activities resulted primarily from construction in progress with the development of the public sports complex that is projected to open in the fall of 2018. Similarly, the value of business-type assets increased with a much-needed water main replacement and sewer lateral repair project on Main Street in addition to other capital purchases and repairs. The Town’s investment in capital assets includes land, buildings, improvements other than buildings, machinery and equipment, vehicles, infrastructure, art collection and construction in progress. The Town owns roads, streetlights, and other highway infrastructure that has been included in this report.

Major capital asset events during the 2017 fiscal year included the following:

- Purchase of four police vehicles, two police motorcycles, and one public works vehicle
- Purchase of 12 land parcels in Phase III MY1 of the Pinewood Heights Redevelopment Project
- Substantial progress on construction of a public sports complex
- Completion of a water line upgrade and sewer lateral repairs on Main Street
- Completion of significant waterline repairs on Pagan Road
- Sanitary sewer rehabilitation of sewer lines in Cypress & Moore’s Creek Basins
- Emergency bypass pump installation at the Wellington Pump Station

**Town of Smithfield, Virginia

CAPITAL ASSETS AND DEBT ADMINISTRATION (CONTINUED)

Additional details on the Town's capital assets can be found in Note 7 of the Notes to the Basic Financial Statements.

Debt Administration. Outstanding debt for the Town at fiscal year-end 2017 totaled \$6,749,161 of which \$3,707,072 originated from governmental activities and the remaining \$3,042,089 from business-type activities. The Town did utilize a new five million dollar (\$5,000,000) non-revolving line of credit in FY2017 and paid interest only during the year. Of the \$5,000,000 available, \$3,030,447 was drawn during FY2017. The line was converted into a fixed note in October 2017 after the remaining \$1,969,553 was drawn. Total principal paid for all debt during the year was \$492,640. The Town's ratio of net bonded debt to total assessed value of taxable property increased from 0.07% in FY2016 to .29% in FY2017 with the addition of funding from the \$5 million credit line.

Detailed information about the Town's long-term obligations, net bonded debt per capita and legal debt margin may be found in Notes, 8, 9 and 10 of the Notes to the Financial Statements and Statistical Tables 9, 10, and 11. The Town's outstanding debt is significantly below the state's allowable limit of 10% of the total assessed value of taxed real property.

Town of Smithfield, Virginia Outstanding Debt For the Year Ended June 30, 2017

	Governmental Activities		Business-type Activities		Total	
	2017	2016	2017	2016	2017	2016

ECONOMIC FACTORS

During FY2017 the Town of Smithfield began construction of a new public sports complex. A large portion of the project was funded through the generosity of private contributors. The projected opening has been moved to the fall of 2018 as a right turn lane required by the Virginia Department of Transportation (VDOT) is currently in the engineering phase. The complex is expected to expand recreational opportunities for the citizens of Smithfield and Isle of Wight County as well as attract visitors that will stimulate the economy. In addition, substantial progress was made on the restoration project at Windsor Castle Park that has focused on the Manor House and some of its outbuildings. The park continues to be a favorite special event venue but is also used daily by those who enjoy the dog park, the natural playground, and the trails. The Pinewood Heights Redevelopment Project has made great strides with Phase III, leading the Town to start planning for Phase IV. Meals tax revenues designated for the funding of the project remain strong and have made its continuation possible. The Town did experience personnel turnover in several departments during FY2017 which is always challenging in a small organization. The Town staff has worked closely with Town Council to ensure that its work force is adequate to meet the Town's needs as amenities expand. Consideration will be given to compensation and benefits as preparations are made for the next budget cycle with an emphasis on remaining competitive with surrounding jurisdictions in order to attract and retain personnel.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Town of Smithfield, Virginia's financial condition as of fiscal year ended 2017. Questions concerning this report or requests for additional information should be directed to the Treasurer, Town of Smithfield, 310 Institute Street, Smithfield, VA 23430.

Reconciliation of the Balance Sheet of Governmental Funds
to the Statement of Net Position
As of June 30, 2017

Amounts reported for governmental activities in the statement of net position are different because:

Total fund balances per Exhibit 3 - Balance Sheet - Governmental Funds	\$	7,810,935	
When capital assets (land, buildings, equipment) that are to be used in governmental activities are purchased or constructed, the costs of those assets are reported as expenditures in governmental funds. However, the statement of net position includes those capital assets among the assets of the locality as a whole.			24,524,977
The net pension asset is not an available resource and, therefore, is not reported in the funds.			522,832
Pension contributions subsequent to the measurement date will be an addition to the net pension asset in the next fiscal year and, therefore, are not reported in the funds.			126,575
Other long-term assets are not available to pay for current-period expenditures and, therefore, are reported as unavailable revenue.			
Unavailable revenue related to property taxes	\$	71,653	
Items related to measurement of net pension asset - deferred outflows		<u>184,482</u>	256,135
Interest paid on long-term debt is not accrued in governmental funds, but rather is recognized when paid.			(167)
Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds. All liabilities - both current and long-term - are reported in the Statement of Net Position.			
Bonds, notes and line of credit	\$	(3,509,832)	
Compensated absences		(197,240)	
Items related to measurement of net pension asset - deferred inflows		<u>(24,470)</u>	<u>(3,731,542)</u>
Net position of governmental activities	\$		<u><u>29,509,745</u></u>

The notes to financial statements are an integral part of this statement.

The notes to financial statements are an integral part of this statement.

Reconciliation of Statement of Revenues,
Expenditures, and Changes in Fund Balances of Governmental Funds
to the Statement of Activities
For the Year Ended June 30, 2017

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$	283,896
--	----	---------

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. Details supporting this adjustment are as follows:

Capital outlay	\$	3,371,925	
Depreciation expense		<u>(859,265)</u>	2,512,660

The net effect of various miscellaneous transactions involving capital assets (i.e. sales and donations) is to increase or decrease net position.

Gain (loss) on exchange of capital assets	(7,804)
---	---------

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Property tax revenue	\$	(13,582)	
Change in deferred inflows of resources related to the measurement of the net pension asset		141,715	
Decrease in unearned incentive		<u>(205,000)</u>	(76,867)

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. Details supporting this adjustment are as follows:

Proceeds from the line of credit draws	\$	(2,665,447)	
Principal retired on general obligation bonds and notes		<u>90,800</u>	(2,574,647)

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.

(Increase) / decrease in compensated absences	\$	(7,417)	
Increase / (decrease) in net pension asset		(274,187)	
Increase / (decrease) in deferred outflows of resources related to the measurement of the net pension asset		180,589	
Increase / (decrease) in pension contributions subsequent to measurement date		(15,432)	
(Increase) / decrease in accrued interest payable		<u>25</u>	(116,422)

Change in net position of governmental activities	\$	<u><u>20,816</u></u>
---	----	----------------------

The notes to financial statements are an integral part of this statement.

TOWN OF SMITHFIELD, VIRGINIA

Notes to Financial Statements
As of June 30, 2017

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Narrative Profile

Town of Smithfield, Virginia (Town) is a political subdivision of the Commonwealth of Virginia governed by an elected seven member Town Council. The Town provides a full range of services for its citizens. These services include public safety, recreational activities, and cultural events.

The financial statements of Town of Smithfield, Virginia have been prepared in conformity with the specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia, and the accounting principles generally accepted in the United States as specified by the Governmental Accounting Standards Board. The more significant of the Town's accounting policies are described below.

A. Financial Reporting Entity

Accounting principles generally accepted in the United States require financial statements to present the primary government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government's operations and so data from these units are combined with data of the primary government. The Town has no component units that meet the requirements for blending. Discretely presented component units, on the other hand, are reported in a separate column in the government-wide statements to emphasize they are legally separate from the primary government. The Town does not have any discretely presented component units.

B. Government-wide and Fund Financial Statements

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board (GASB). The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the Town. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

Statement of Net Position - The Statement of Net Position is designed to display the financial position of the primary government (government and business-type activities). Governments will report all capital assets in the government-wide Statement of Net Position and will report depreciation expense, the cost of "using up" capital assets, in the Statement of Activities. The net position of a government will be broken down into three categories - 1) net investment in capital assets; 2) restricted; and 3) unrestricted.

Statement of Activities - The government-wide Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

B. Government-wide and Fund Financial Statements (Continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Budgetary comparison schedules - Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. Under the GASB 34 reporting model, governments provide budgetary comparison information in their annual reports, including the original budget and a comparison of final budget and actual results.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) which are otherwise being supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.) The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Property taxes, sales taxes, franchise taxes, licenses, meals tax, transient occupancy tax and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental column, a reconciliation is presented which briefly explains the adjustment necessary to reconcile the fund financial statements to the governmental column of the government-wide financial statements.

The following is a brief description of the specific funds used by the Town.

1. *Governmental Funds:*

Governmental Funds are those through which most governmental functions typically are financed.

- a. *General Fund* - The General Fund is the primary operating fund of the Town. This fund is used to account for and report all financial resources except those required to be accounted for and reported in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for services, and interest income. The General Fund is considered a major fund for reporting purposes.
- b. *Special Revenue Fund* - Special revenue funds account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The only special revenue fund is the Highway Maintenance Fund, which is considered a major fund.
- c. *Capital Projects Fund* - The Capital Projects Fund accounts for and reports financial resources that are restricted, committed or assigned to expenditure for capital outlays, except for those financed by proprietary funds or for assets held in trust for individuals, private organizations, or other governments. The Town Capital Projects Fund is considered a major fund.

2. *Proprietary Funds:*

Proprietary Funds account for operations that are financed in a manner similar to private business enterprises. The measurement focus is upon determination of net income, financial position, and changes in financial position. Proprietary Funds consist of an enterprise fund.

Enterprise Funds account for the financing of services to the general public where all or most of the operating expenses involved are recorded in the form of charges to users of such services. The enterprise fund consists of the Water and Sewer Funds.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes where the amounts are reasonably equivalent in value to the interfund services provided and other charges between the government's water and sewer function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues consist of charges to customers for sales and services. The Town also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses include the costs of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

D. Budgets and Budgetary Accounting

The Town Council annually adopts budgets for the general and water and sewer funds.

The Town follows these procedures in establishing the budgetary data reflected in the financial statements:

1. On or before May 1 of each year, the Town Manager submits to Town Council a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.
2. Public notice regarding the proposed budget is circulated in accordance with Virginia statute, and at least one public hearing is conducted at the Smithfield Center to obtain taxpayer comments.
3. Prior to June 30, the budget is legally enacted through passage of an appropriation resolution. Town Council may approve supplemental appropriations.
4. The legal level of control is at the function level within an individual fund. The Town Manager is authorized to transfer budgeted amounts within departments within any fund; however, any revisions between departments, from the contingency line item, or that alter the total expenditures of any fund must be approved by Town Council.
5. Formal budgetary integration is employed as a management control device during the year for the General Fund, Highway Maintenance Fund, Water Fund and Sewer Fund.
6. The budgets for the General Fund, Water Fund and Sewer Fund are adopted on a basis consistent with generally accepted accounting principles (GAAP).
7. A review of the presented budget comparisons herein will disclose how accurately Town Council was actually able to forecast the revenues and expenditures of the Town.
8. Appropriations lapse on June 30, unless carried forward by a resolution of Town Council.
9. Budgetary amounts as presented in the financial statements reflect budget revisions through June 30, 2017.

E. Expenditures and Appropriations

Expenditures did not exceed appropriations in any fund at June 30, 2017.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

F. Cash and Cash Equivalents

For purposes of the statement of cash flows, cash equivalents are defined as short-term highly liquid investments that are both (1) readily convertible to known amounts of cash, and (2) so near the maturity that they present insignificant risk of changes in value because of changes in interest rates. Generally, only investments with original maturities of three months or less meet this definition.

G. Investments

Money market investments, participating interest-earning investment contracts (repurchase agreements) that have a remaining maturity at time of purchase of one year or less, nonparticipating interest-earning investment contracts (nonnegotiable certificates of deposit (CDs)) and external investment pools are measured at amortized cost. All other investments are reported at fair value.

H. Inventory and Prepaid Items

All inventories, which consist of materials and supplies, are valued at cost using the weighted average method. Reported inventories are accounted for under the consumption method (i.e., recorded as expenditures when used) in the proprietary funds. The cost is recorded as an expenditure at the time individual inventory items are consumed. Quantities on hand at year end are recorded at cost on the balance sheet.

I. Allowance for Uncollectible Accounts

The Town calculates its allowances for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance for uncollectible taxes was \$98,617 at June 30, 2017. The allowance for uncollectible billings in the water and sewer funds are \$73,795 and \$50,089, respectively.

J. Capital Assets

Capital outlays are recorded as expenditures of the governmental funds of the Town, and as assets in the government-wide financial statements to the extent that the Town's capitalization threshold of \$5,000 and estimated useful life of greater than one year is met. Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at acquisition value as of the date received. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation is recorded on capital assets on a government-wide basis using the straight-line method and the following estimated useful lives:

Art	15 Years
Buildings and System	10-50 Years
Automobiles	5-7 Years
Machinery and Equipment	3-30 Years
Infrastructure	30-65 Years
Improvements Other than Buildings	10-50 Years

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

J. Capital Assets: (Continued)

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. The Town reported capitalized interest in the amount of \$0 for fiscal year 2017.

K. Compensated Absences

Town employees are granted vacation and sick leave based on the employee's length of service and position. They may accumulate, subject to certain limitations, unused vacation and sick leave earned. Upon retirement, termination or death, employees may be compensated for certain amounts at their then current rate of pay. The accumulated annual sick and vacation leave estimated to be payable upon separation are recorded in the accompanying government-wide financial statements. The current amount of leave liability has been estimated. The balance of compensated absences has been reported as a long-term liability.

L. Long-term Obligations

In the government-wide financial statements, long-term obligations are reported as liabilities in the applicable governmental activities. Bonds payable are reported net of the applicable bond premium or discount. Long-term obligations financed by proprietary funds are reported as liabilities in the appropriate fund.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued and premiums on issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

M. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Significant estimates, which are elements of these financial statements, include allowance for doubtful accounts receivable and useful lives for tangible property. Actual results could differ from those estimates.

N. Intergovernmental Agreements

Water Services Agreement:

The Town has an agreement in place with Isle of Wight County to provide water to certain areas of Isle of Wight County. The initial agreement was entered into in August 2010 for a term of five years at the rate of \$3.90 per 1,000 gallons. The rate was increased to \$5.99 effective January 1, 2012 as part of utility rate increases adopted by the Town council. The rate was increased again as of July 1, 2013 to \$6.41 per 1,000 gallons. The Town received \$248,318 in 2016 under this agreement. On June 7, 2016 the Town Council approved a new agreement that reduced the water rate to 6.10 per 1,000 gallons. The effective date of the agreement is July 1, 2016 for a term of 2 years.

TOWN OF SMITHFIELD, VIRGINIA

Notes to Financial Statements
As of June 30, 2017 (Continued)

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

N. Intergovernmental Agreements (Continued)

Sanitary Sewer Public Utility Agreement:

The Town has an agreement in place with Isle of Wight County to provide sewer services to certain areas of Isle of Wight County at the rate of \$1.50 per month for each residential and commercial connection within the area. The initial agreement was entered into in March 2010 and expired in March 2015. Payment continued after the expiration date on a monthly basis based on the terms of the expired agreement. A new agreement was approved at the June 7, 2016 Town Council meeting that increased sewer charges to \$2.50 per 1,000 gallons. The effective date of the agreement is July 1, 2016 for a term of 2 years.

Tourism Agreement:

The Town has a memorandum of understanding with Isle of Wight County to share the operating costs of the tourism center located in Smithfield. The tourism center is for the benefit of both Smithfield and Isle of Wight County. The total amount the Town expended related to this memorandum of understanding in fiscal year 2017 was \$221,956.

Erosion and Sediment Control Plan:

The Town has a memorandum of agreement with Isle of Wight County to develop an erosion and sediment control plan for each zoning permit that it issues. There was no expenditure related to this agreement in fiscal year 2017.

Fats, Oils, and Grease Control:

The Town, along with several other localities, has entered into a Memorandum of agreement with Hampton Roads Sanitation District related to control of the amounts of fats, oils, and grease draining into sanitary sewers from food service establishments. The total amount the Town expended during fiscal year 2017 was nominal and is not currently tracked or reported separately by the Town.

Law Enforcement Mutual Aid Agreement:

The Town has entered into a mutual aid agreement with several other localities to provide police and sheriff support across jurisdictional lines. There was no expenditure related to this agreement in fiscal year 2017.

Emergency Communications Center:

The Town has entered into a memorandum of understanding with other nearby localities to establish an emergency communications center to serve as a central dispatch facility for police, fire and EMS. The total amount the Town expended related to this memorandum of understanding in 2017 was \$193,628.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

O. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Town has several items that qualify for reporting in this category. One item is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. Other items are the difference between expected and actual experience related to the net pension liability (asset), and net differences between projected and actual earnings on pension assets. The last item is comprised of contributions to the pension plan made during the current year and subsequent to the net pension liability (asset) measurement date, which will be recognized as a reduction (addition) of the net pension liability (asset) next fiscal year. For more detailed information on this item, reference the pension note.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Town has two items that qualify for reporting in this category. Under a modified accrual basis of accounting, unavailable revenue representing property taxes receivable is reported in the governmental funds balance sheet. This amount is comprised of uncollected property taxes due prior to June 30, 2nd half installments levied during the fiscal year but due after June 30th, and amounts prepaid on the 2nd half installments and is deferred and recognized as an inflow of resources in the period that the amount becomes available. Under the accrual basis, 2nd half installments levied during the fiscal year but due after June 30th and amounts prepaid on the 2nd half installments are reported as deferred inflows of resources. In addition, certain items related to the measurement of the net pension liability (asset) are reported as deferred inflows of resources. This includes differences between expected and actual experience. For more detailed information on this item, reference the pension note.

P. Pensions

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Town's Retirement Plan and the additions to/deductions from the Town's Retirement Plan's net fiduciary position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Q. Net Position

Net position is the difference between a) assets and deferred outflows of resources and b) liabilities and deferred inflows of resources. Net investment in capital assets represents capital assets, less accumulated depreciation, less any outstanding debt related to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

R. Net Position Flow Assumption

Sometimes the Town will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Town's policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

S. Fund Equity

The Town reports fund balance in accordance with GASB Statement 54, *Fund Balance Reporting and Governmental Fund type Definitions*. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance - amounts that are not in spendable form (such as inventory and prepaids) or are required to be maintained intact (corpus of a permanent fund);
- Restricted fund balance - amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance - amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;
- Assigned fund balance - amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- Unassigned fund balance - amounts that are available for any purpose; positive amounts are only reported in the general fund.

When fund balance resources are available for a specific purpose in more than one classification, it is generally the Town's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

Town Council establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance/resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by Town Council through adoption or amendment of the budget as intended for specific purpose (such as the purchase of capital assets, construction, debt service, or for other purposes).

TOWN OF SMITHFIELD, VIRGINIA

Notes to Financial Statements
As of June 30, 2017 (Continued)

NOTE 2—DEPOSITS AND INVESTMENTS:

Deposits

All deposits of the Town are held in banks covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (Act) Section 2.2-4400 et. seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments

As of June 30, 2017, the Town had the following investments:

<u>Town's Rated Debt Investments</u>	
<u>Rated Debt Investments Value</u>	<u>Standard & Poor's</u>
	<u>AAf</u>
VACO/VML Virginia Investment Pool \$	<u>511,713</u>
Total	<u>\$ 511,713</u>

Investment Credit Policy

The Town's investment policy permits the Town to invest any and all funds belonging to the Town or in the Town's control in the following:

1. U.S. Government Obligations - Stocks, bonds, notes and other evidences of indebtedness of the United States, its agencies or government sponsored corporations. These securities can be held directly or in the form of a registered money market or mutual funds provided that the portfolio of the fund is limited to such evidences of indebtedness.
2. Municipal Obligations - Stocks, bonds, notes and other evidences of indebtedness of the Commonwealth of Virginia, or of any county, city, town, district, authority or public body of the Commonwealth of Virginia with an investment grade from two of the rating agencies of at least A by Moody's, A by S&P, or A by Fitch.
3. Overnight, term or open Repurchase agreements collateralized by U.S. Treasury/Agency Securities- The repurchase agreement should have a term to maturity of not greater than (90) days. The collateral for overnight or one day repurchase agreements is required to be at least 100% of the value of the repurchase agreement.

TOWN OF SMITHFIELD, VIRGINIA

Notes to Financial Statements
As of June 30, 2017 (Continued)

NOTE 2—DEPOSITS AND INVESTMENTS: (CONTINUED)

Investment Credit Policy (Continued)

4. Corporate Notes - Issued by corporations organized and operating within the United States or by depository institutions licensed by the United States or any state and operating within the United States that has a minimum "Aa" long-term debt rating by Moody's Investor's Service and a minimum "AA" long-term debt rating by Standard & Poor's. The amount invested in any single issuing corporation will not exceed five percent (5%) of the total funds available for investment (based on book value at the date of acquisition).
5. Negotiable Certificates of Deposit and Bank Deposit Notes of domestic banks and domestic offices of foreign banks- Must have a rating of at least A-1 by Standard & Poor's and P-1 by Moody's Investor Service, Inc., for maturities of one year or less and a rating of at least "AA" by Standard & Poor's and "Aa" by Moody's Investor Service for maturities over one year and not exceed five years.
6. Commercial paper - Unsecured short-term debt of U.S. corporations may be purchased if the following conditions are met:
 - a) The maturity is no greater than two hundred-seventy (270) days;
 - b) No more than five percent (5%) of the total funds available for investment (based on book value on the date of acquisition) may be invested in commercial paper;
 - c) The amount invested in any single issuing corporation will not exceed five percent (5%) of the total funds available for investment (based on book value on the date of acquisition);
 - d) The issuing corporation, or its guarantor, has a net worth of at least \$50 million;
 - e) The net income of the issuing corporation, or its guarantor, has averaged \$3 million per year for the previous five years; and
 - f) The issuing corporation, or its guarantor, has a short-term debt rating of no less than "A-1" (or its equivalent) by at least two of following; Moody's Investors Service, Standard & Poor's, Fitch Investor's Service and Duff and Phelps.
7. Registered Investment Companies (Mutual Funds) - Shares in open-end investment funds provided such funds are registered under the Federal Investment Company Act of 1940, invest exclusively in the securities permitted under this investment policy, provided that the fund is rated "AAm" or "AAm-G" or better by Standard & Poor's Corporation, or equivalent by other rating agencies. The fund must also be properly registered for sale under the Securities Act (Section 13.1-501 et. seq.) of the Code of Virginia.
8. State Pool - The pooled investment fund (known as the Virginia Local Government Investment Pool or "LGIP") as provided for in Section 2.2-4600 et seq. of the Code of Virginia.
9. VACo/VML Virginia Investment Pool - This pooled investment fund as provided for in Sections 2.2-4501, 15.2-1500, and 15.2-1300 of the Code of Virginia.

TOWN OF SMITHFIELD, VIRGINIA

Notes to Financial Statements
As of June 30, 2017 (Continued)

NOTE 2—DEPOSITS AND INVESTMENTS: (CONTINUED)

Interest Rate Risk

This is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value is to changes in market interest rates. The Town’s investment policy requires that no investment maturity or duration exceed five years.

<u>Investment Type</u>	<u>Investment Maturity*</u>	
	<u>Fair Value</u>	<u>Less than 1</u>
VACO/VML Virginia Investment Pool	\$ 511,713	\$ 511,713
Total investments	\$ 511,713	\$ 511,713

* Weighted average maturity in years.

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the Town will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. The Town’s investment policy states that all securities and investments shall be in the name of the Town.

Concentration of Investment Credit Risk

The Town’s investment policy requires the following diversification to mitigate concentration of investment credit risk:

1. The portfolio will be diversified with no more than five percent of its value invested in the securities of any single issuer. This limitation shall not apply to securities of the Commonwealth of Virginia, the U.S. Government, insured certificates of deposit, the Commonwealth of Virginia Local Government Investment Pool, and the VACO/VML Virginia Investment Pool.
2. The maximum percentage of the portfolio (book value at the date of acquisition) permitted in each eligible security is as follows:

U.S. Government Obligations	100% maximum
Registered Money Market Mutual Funds	100% maximum
State of Virginia LGIP	100% maximum
Repurchase Agreements	50% maximum
Commercial Paper	5% maximum
Negotiable Certificates of Deposit/Bank Notes	75% maximum
Municipal Obligations	20% maximum
Corporate Notes	15% maximum
Bank Deposits	100% maximum

Debt service	-	-	868,463	-
Compliance escrow	-	-	-	1,893,339
Customer deposits	-	-	85,537	-
Total	<u>\$ 1,458,053</u>	<u>\$ 145,135</u>	<u>\$ 954,000</u>	<u>\$ 1,893,339</u>

Fair Value Measurements

Fair value for investments is determined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. The three-level fair value hierarchy prioritizes the inputs used to measure fair value. This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

- Level 1 – Quoted prices in active markets for identical assets or liabilities.
- Level 2 – Significant observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- Level 3 – Significant unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

TOWN OF SMITHFIELD, VIRGINIA

TOWN OF SMITHFIELD, VIRGINIA

Notes to Financial Statements
As of June 30, 2017 (Continued)

NOTE 6—UNEARNED INCENTIVE- SALE OF TOWN PROPERTY:

The Town has previously entered multiple agreements with purchasers of certain property previously owned by the Town. The agreements provide for forgiveness of the initial purchase price, based on the fair market value, whereby the purchaser must invest an agreed upon amount in the construction and rehabilitation costs in the property. During fiscal year 2017 the remaining previous balance of \$205,000 was earned by the purchaser of the property. As of June 30, 2017 there are no amounts outstanding.

NOTE 7—CAPITAL ASSETS:

The following is a summary of changes in capital assets:

Governmental Activities:	Balance June 30, 2016	Additions	Deletions	Balance June 30, 2017

NOTE 8—LINE OF CREDIT:

In fiscal year 2013, the Town renewed an agreement with TowneBank for a line of credit of \$500,000 in order to assist the Town in financing the purchase of properties under the Pinewood Heights Project. Borrowings bear interest at LIBOR or Wall Street Journal Prime Rate (depending on which is most advantageous to the Town at the time of borrowing) but at no time will the interest rate be lower than 3.25%. At June 30, 2017, the interest rate being charged to the Town was 3.58% and there was no balance outstanding. The unsecured line was renewed and will expire April 30, 2018.

On July 31, 2012, the Town entered into an agreement with Farmers Bank for a line of credit of \$1,000,000 in order to assist the Town in financing capital projects. The variable interest rate is calculated based on the Wall Street Journal Prime Rate. At June 30, 2017, the interest rate being charged to the Town was 2.9% and there was no balance outstanding. The unsecured line was to expire on July 31, 2017; however, the line was renewed and will expire on July 31, 2018.

In October 2016, the Town entered into a line of credit agreement with Farmers Bank of Windsor, VA in the amount of \$5,000,000. The non-revolving line of credit was converted to a fixed note in October 2017. Interest only was due in fiscal year 2017. Interest paid in fiscal year 2017 was \$9,735. The outstanding balance at June 30, 2017 was \$3,030,447.

TOWN OF SMITHFIELD, VIRGINIA

Notes to Financial Statements
As of June 30, 2017 (Continued)

NOTE 9—LONG-TERM OBLIGATIONS:

Governmental activities obligations

The following is a summary of changes in long-term obligations:

	<u>Balance July 1, 2016</u>	<u>Issuances/ Additions</u>	<u>Retirements/ Reductions</u>	<u>Balance June 30, 2017</u>
General obligation bond payable	\$ 537,678	\$ -	\$ (23,233)	\$ 514,445
Notes payable	397,507	-	(67,567)	329,940
Line of credit	-	2,665,447	-	2,665,447
Compensated absences	189,823	7,417	-	197,240
Totals	<u>\$ 1,125,008</u>	<u>\$ 2,672,864</u>	<u>\$ (90,800)</u>	<u>\$ 3,707,072</u>

Details of Long-term Obligations

In April 2011, the primary government issued Taxable General Obligation Bonds of \$638,907 pursuant to a sales contract entered into with the County of Isle of Wight in February 2011. Principal payments will be made in eight annual installments beginning January 2012 with a balloon payment of \$489,553 due no later than December 2019. Interest is calculated at 4% to 5.50% per annum and made in semiannual installments, which began in February 2011. The bonds were issued for the purpose of providing funds for various public improvement projects, including but not limited to, the acquisition of land for public safety and administration offices. At June 30, 2017, the balance of the bond payable was \$514,445.

Annual requirements for the bonds and notes outstanding for governmental activities are as follows:

Year Ending June 30,	<u>Bond Payable</u>		<u>Notes Payable</u>		<u>Line of Credit*</u>	
	<u>Principal</u>	<u>Interest</u>	<u>Principal</u>	<u>Interest</u>	<u>Principal</u>	<u>Interest</u>
2018	\$ 24,893	\$ 29,402	\$ 54,876	\$ 9,283	\$ 103,047	\$ 48,351

TOWN OF SMITHFIELD, VIRGINIA

Notes to Financial Statements
As of June 30, 2017 (Continued)

NOTE 10—COMPENSATED ABSENCES:

Annual Leave Accrual

Each employee earns annual leave on a monthly basis for each month of service. The rate at which annual leave is accrued is dependent upon the length of the employee's service with the Town.

In lieu of taking regular vacation, an employee may request, before April 1, to be paid at his regular hourly rate for up to five days of unused earned leave. The payout is made on the first payroll in July. Leave not taken or time for which the employee has not been compensated may be carried over to the next year. However, no more than 10 days may be carried over.

Sick Leave

Each employee is eligible for eight hours of sick leave per month beginning the first month of employment. Unused sick leave may be accumulated and carried forward to succeeding years. Upon termination, each employee who has completed three years of continuous service is eligible to receive payment for unused sick leave hours at 25% of the employee's hourly rate at the time of termination, not to exceed \$2,500.

At June 30, 2017, accumulated vacation and sick leave for the governmental funds amounted to \$197,240 of which \$76,301 is short-term.

At June 30, 2017, accumulated vacation and sick leave for the proprietary funds amounted to \$44,089 of which \$20,072 is short-term.

NOTE 11—PENSION PLAN:

Plan Description

All full-time, salaried permanent employees of the Town are automatically covered by a VRS Retirement Plan upon employment. This is an agent multiple-employer plan administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the Code of Virginia, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

NOTE 11—PENSION PLAN:

Plan Description: (Continued)

The System administers three different benefit structures for covered employees - Plan 1, Plan 2, and Hybrid. Each of these benefit structures has different eligibility criteria. The specific information for each plan and the eligibility for covered groups within each plan are set out in the table below:

RETIREMENT PLAN PROVISIONS		
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
<p>About Plan 1 Plan 1 is a defined benefit plan. The retirement benefit is based on a member’s age, creditable service and average final compensation at retirement using a formula. Employees are eligible for Plan 1 if their membership date is before July 1, 2010, and they were vested as of January 1, 2013.</p>	<p>About Plan 2 Plan 2 is a defined benefit plan. The retirement benefit is based on a member’s age, creditable service and average final compensation at retirement using a formula. Employees are eligible for Plan 2 if their membership date is on or after July 1, 2010, or their membership date is before July 1, 2010, and they were not vested as of January 1, 2013.</p>	<p>About the Hybrid Retirement Plan The Hybrid Retirement Plan combines the features of a defined benefit plan and a defined contribution plan. Most members hired on or after January 1, 2014 are in this plan, as well as Plan 1 and Plan 2 members who were eligible and opted into the plan during a special election window. (see “Eligible Members”)</p> <ul style="list-style-type: none"> • The defined benefit is based on a member’s age, creditable service and average final compensation at retirement using a formula. • The benefit from the defined contribution component of the plan depends on the member and employer contributions made to the plan and the investment performance of those contributions. • In addition to the monthly benefit payment payable from the defined benefit plan at retirement, a member may start receiving distributions from the balance in the defined contribution account, reflecting the contributions, investment gains or losses, and any required fees.

NOTE 11—PENSION PLAN: (CONTINUED)

Plan Description: (Continued)

RETIREMENT PLAN PROVISIONS (CONTINUED)		
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
<p>Eligible Members Employees are in Plan 1 if their membership date is before July 1, 2010, and they were vested as of January 1, 2013.</p> <p>Hybrid Opt-In Election VRS non-hazardous duty covered Plan 1 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014.</p> <p>The Hybrid Retirement Plan's effective date for eligible Plan 1 members who opted in was July 1, 2014.</p> <p>If eligible deferred members returned to work during the election window, they were also eligible to opt into the Hybrid Retirement Plan.</p> <p>Members who were eligible for an optional retirement plan (ORP) and had prior service under Plan 1 were not eligible to elect the Hybrid Retirement Plan and remain as Plan 1 or ORP.</p>	<p>Eligible Members Employees are in Plan 2 if their membership date is on or after July 1, 2010, or their membership date is before July 1, 2010, and they were not vested as of January 1, 2013.</p> <p>Hybrid Opt-In Election Eligible Plan 2 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014.</p> <p>The Hybrid Retirement Plan's effective date for eligible Plan 2 members who opted in was July 1, 2014.</p> <p>If eligible deferred members returned to work during the election window, they were also eligible to opt into the Hybrid Retirement Plan.</p> <p>Members who were eligible for an optional retirement plan (ORP) and have prior service under Plan 2 were not eligible to elect the Hybrid Retirement Plan and remain as Plan 2 or ORP.</p>	<p>Eligible Members Employees are in the Hybrid Retirement Plan if their membership date is on or after January 1, 2014. This includes:</p> <ul style="list-style-type: none"> • Political subdivision employees* • Members in Plan 1 or Plan 2 who elected to opt into the plan during the election window held January 1-April 30, 2014; the plan's effective date for opt-in members was July 1, 2014. <p>*Non-Eligible Members Some employees are not eligible to participate in the Hybrid Retirement Plan. They include:</p> <ul style="list-style-type: none"> • Political subdivision employees who are covered by enhanced benefits for hazardous duty employees. <p>Those employees eligible for an optional retirement plan (ORP) must elect the ORP plan or the Hybrid Retirement Plan. If these members have prior service under Plan 1 or Plan 2, they are not eligible to elect the Hybrid Retirement Plan and must select Plan 1 or Plan 2 (as applicable) or ORP.</p>

NOTE 11—PENSION PLAN: (CONTINUED)

Plan Description: (Continued)

RETIREMENT PLAN PROVISIONS (CONTINUED)		
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
<p>Retirement Contributions Employees contribute 5% of their compensation each month to their member contribution account through a pre-tax salary reduction. Some political subdivisions elected to phase in the required 5% member contribution but all employees are paying the full 5% as of July 1, 2016. Member contributions are tax-deferred until they are withdrawn as part of a retirement benefit or as a refund. The employer makes a separate actuarially determined contribution to VRS for all covered employees. VRS invests both member and employer contributions to provide funding for the future benefit payment.</p>	<p>Retirement Contributions Employees contribute 5% of their compensation each month to their member contribution account through a pre-tax salary reduction. Some political subdivisions elected to phase in the required 5% member contribution but all employees are paying the full 5% as of July 1, 2016.</p>	<p>Retirement Contributions A member’s retirement benefit is funded through mandatory and voluntary contributions made by the member and the employer to both the defined benefit and the defined contribution components of the plan. Mandatory contributions are based on a percentage of the employee’s creditable compensation and are required from both the member and the employer. Additionally, members may choose to make voluntary contributions to the defined contribution component of the plan, and the employer is required to match those voluntary contributions according to specified percentages.</p>
<p>Creditable Service Creditable service includes active service. Members earn creditable service for each month they are employed in a covered position. It also may include credit for prior service the member has purchased or additional creditable service the member was granted. A member’s total creditable service is one of the factors used to determine their eligibility for retirement and to calculate their retirement benefit. It also may count toward eligibility for the health insurance credit in retirement, if the employer offers the health insurance credit.</p>	<p>Creditable Service Same as Plan 1.</p>	<p>Creditable Service <u>Defined Benefit Component:</u> Under the defined benefit component of the plan, creditable service includes active service. Contributions

The contribution requirement for active employees is governed by §51.1-145 of the Code of Virginia, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement. Prior to July 1, 2012, all or part of the 5.00% member contribution may have been assumed by the employer. Beginning July 1, 2012 new employees were required to pay the 5% member contribution. In addition, for existing employees, employers were required to begin making the employee pay the 5.00% member contribution. This could be phased in over a period of up to 5 years and the employer is required to provide a salary increase equal to the amount of the increase in the employee-paid member contribution.

The Town's contractually required contribution rate for the year ended June 30, 2017 was 5.67% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2015.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the Town were \$156,370 and \$175,434 for the years ended June 30, 2017 and June 30, 2016, respectively.

Net Pension Liability (Asset)

The Town's net pension liability (asset) was measured as of June 30, 2016. The total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation performed as of June 30, 2015, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2016.

NOTE 11—PENSION PLAN: (CONTINUED)

Actuarial Assumptions - General Employees

The total pension liability for General Employees in the Town's Retirement Plan was based on an actuarial valuation as of June 30, 2015, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2016.

Inflation	2.5%
Salary increases, including inflation	3.5% - 5.35%
Investment rate of return	7.0%, net of pension plan investment expense, including inflation*

* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

Mortality rates: 14% of deaths are assumed to be service related

Largest 10 - Non-LEOS:

NOTE 11—PENSION PLAN: (CONTINUED)

Actuarial Assumptions - General Employees (Continued)

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of an actuarial experience study for the period from July 1, 2008 through June 30, 2012. Changes to the actuarial assumptions as a result of the experience study are as follows:

Largest 10 - Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

All Others (Non 10 Largest) - Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

Actuarial Assumptions - Public Safety Employees

The total pension liability for Public Safety employees in the Town's Retirement Plan was based on an actuarial valuation as of June 30, 2015, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2016.

Inflation	2.5%
Salary increases, including inflation	3.5% - 4.75%
Investment rate of return	7.0%, net of pension plan investment expense, including inflation*

* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

NOTE 11—PENSION PLAN: (CONTINUED)

Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Target Allocation	Arithmetic Long-Term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return
U.S. Equity	19.50%	6.46%	1.26%
Developed Non U.S. Equity	16.50%	6.28%	1.04%
Emerging Market Equity	6.00%	10.00%	0.60%
Fixed Income	15.00%	0.09%	0.01%
Emerging Debt	3.00%	3.51%	0.11%
Rate Sensitive Credit	4.50%	3.51%	0.16%
Non Rate Sensitive Credit	4.50%	5.00%	0.23%
Convertibles	3.00%	4.81%	0.14%
Public Real Estate	2.25%	6.12%	0.14%
Private Real Estate	12.75%	7.10%	0.91%
Private Equity	12.00%	10.41%	1.25%
Cash	1.00%	-1.50%	-0.02%
Total	100.00%		5.83%
		Inflation	2.50%
		*Expected arithmetic nominal return	8.33%

* Using stochastic projection results provides an expected range of real rates of return over various time horizons. Looking at one year results produces an expected real return of 8.33% but also has a high standard deviation, which means there is high volatility. Over larger time horizons the volatility declines significantly and provides a median return of 7.44%, including expected inflation of 2.50%.

TOWN OF SMITHFIELD, VIRGINIA

Notes to Financial Statements
As of June 30, 2017 (Continued)

NOTE 11—PENSION PLAN: (CONTINUED)

Discount Rate

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2018, the rate contributed by the employer for the Town Retirement Plan will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly. From July 1, 2018 on, participating employers are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in Net Pension (Asset) Liability

	Increase (Decrease)		
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Asset (a) - (b)

Notes to Financial Statements
As of June 30, 2017 (Continued)

NOTE 11—PENSION PLAN: (CONTINUED)

Sensitivity of the Net Pension Asset to Changes in the Discount Rate

The following presents the net pension asset of the Town using the discount rate of 7.00%, as well as what the Town's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate:

	Rate		
	1% Decrease (6.00%)	Current Discount (7.00%)	1% Increase (8.00%)
Net Pension (Asset) Liability	587,474	(645,904)	(1,654,558)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2017, the Town recognized pension expense of \$115,991. At June 30, 2017, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 3,393	\$ 30,229
Net difference between projected and actual earnings on pension plan investments	224,514	-
Employer contributions subsequent to the measurement date	156,370	-
Total	\$ 384,277	\$ 30,229

\$156,370 reported as deferred outflows of resources related to pensions resulting from the Town's contributions subsequent to the measurement date will be recognized as an addition to the Net Pension Asset in the fiscal year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future reporting period as follows:

<u>Year ended June 30</u>	
2017	\$ (1,156)
2018	(1,154)
2019	117,440
2020	82,548

TOWN OF SMITHFIELD, VIRGINIA

Notes to Financial Statements
As of June 30, 2017 (Continued)

NOTE 12—CONTINGENT LIABILITIES:

Federal assisted grant programs:

The Town participates in a number of federally assisted grant programs. These programs remain subject to financial and compliance audits by the grantors or their representatives. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under terms of the grant. Based on prior experience, Town management believes such disallowances, if any, would be immaterial.

General Obligation Bonds

General obligation bonds have been recorded in the Enterprise Funds from which repayment is anticipated. The General Fund has a contingent liability for repayment of the aforementioned bonds, should the Enterprise Funds be unable to repay the obligations.

NOTE 13—LEGAL DEBT MARGIN:

The Commonwealth of Virginia imposes a legal limit of 10% of assessed valuation of real estate on the amount of general obligation borrowings that may be issued by the Town. At June 30, 2017, the Town's aggregate general obligation indebtedness was \$104,261,548 less than the Commonwealth of Virginia's limit. Reference Table 11 in the Other Statistical Information.

NOTE 14—RISK MANAGEMENT:

The Town is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. Property, liability and worker's compensation coverage are provided through the Virginia Municipal League Insurance Programs (VML). The Town reports the majority of its risk management expenditures in the General Fund with some allocation to the Water and Sewer Funds accordingly.

The Town maintains surety coverage for principal officials through the VML. Surety coverage is provided under the general liability coverage with a limit of \$5,000,000. All elected officials, appointed officials, members of all appointed governing bodies; employees and volunteers are covered while acting within the scope of their duties with the Town.

NOTE 15—COMMITMENTS:

The Town of Smithfield began a four phase community improvement project in FY2007 to better the living conditions of residents in its Pinewood Heights neighborhood. The project was originally projected to consist of three phases but was later extended to four to make the project financially manageable. As of June 30, 2017, the Town had closed out Phase I and Phase II which included the acquisition of 49 properties, relocation of all but 1 resident, and demolition of all but 1 unit. The remaining resident is a renter who is transitioning to a homeowner and has faced delays with sewer infrastructure on his relocation property. Funding consisted of \$2,400,000 from the Virginia Department of Housing and Community Development (DHCD), \$750,000 in cash and in-kind services from Isle of Wight County as well as \$291,228 in Section 8 vouchers, \$94,682 from the Southeastern Tidewater Opportunity Project (STOP) organization, and \$2,539,180 from the Town of Smithfield.

TOWN OF SMITHFIELD, VIRGINIA

Notes to Financial Statements
As of June 30, 2017 (Continued)

NOTE 15—COMMITMENTS: (CONTINUED)

On February 19, 2016, the Town was awarded a contract for Phase III that will expire on February 18, 2018. This phase consists of 5 owner occupied units, 4 Section 8 rental units, 8 market rate rentals, one vacant housing unit, and two vacant parcels for a total of 20 properties. The budget for Phase III includes a community improvement grant of \$1,000,000 from DHCD and \$1,323,335 in leverage funds as follows: \$43,000 from the Suffolk Redevelopment & Housing Authority (SRHA) for Section 8 rents, \$43,000 from Isle of Wight Home funds, and \$1,237,335 from the Town of Smithfield. As of June 30, 2017, the Town had acquired and relocated all five owner occupied units. The Town had also purchased one vacant lot, 3 Section 8 units, and 5 market rate properties with relocation of 2 section 8 and 5 market rate renters. One section 8 renter and one market rate renter become homeowners through the relocation process. The Town expended \$1,440,921 towards Phase III during the fiscal year of which \$521,185 was eligible for reimbursement.

Upon completion of Phase III, the Town plans to close out the project with Phase IV. The Town expects to fund its portion of the remainder of Phase III as well as Phase IV with meals tax revenues that have been dedicated to the project. With a meals tax rate of 6.25% in FY2017, the Town collected \$1,711,204 in total meals tax revenues with 2% (\$550,583) dedicated to Pinewood.

NOTE 16—UPCOMING PRONOUNCEMENTS:

Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pension*, improves accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). This Statement replaces the requirements of Statements No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as amended, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple Employer Plans*, for OPEB. Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, establishes new accounting and financial reporting requirements for OPEB plans. This Statement is effective for fiscal years beginning after June 15, 2017.

Statement No. 81, *Irrevocable Split-Interest Agreements*, improves accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2016, and should be applied retroactively.

Statement No. 83, *Certain Asset Retirement Obligations*, addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement. This Statement establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for AROs. The requirements of this Statement are effective for reporting periods beginning after June 15, 2018.

NOTE 16—UPCOMING PRONOUNCEMENTS: (CONTINUED)

Statement No. 84, *Fiduciary Activities*, establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. This Statement describes four fiduciary funds that should be reported, if applicable: (1) pension (and other employee benefit) trust funds, (2) investment trust funds, (3) private-purpose trust funds, and (4) custodial funds. This Statement also provides for recognition of a liability to the beneficiaries in a fiduciary fund when an event has occurred that compels the government to disburse fiduciary resources. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018.

Statement No. 86, *Certain Debt Extinguishment Issues*, improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources—resources other than the proceeds of refunding debt—are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance. The requirements of this Statement are effective for reporting periods beginning after June 15, 2017.

Statement No. 87, *Leases*, increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019.

Management is currently evaluating the impact these standards will have on the financial statements when adopted.

Required Supplementary Information

Note to Required Supplementary Information:

Presented budgets were prepared in accordance with accounting principles generally accepted in the United States of America.

2010	109,518	109,518	-	2,291,176	4.78%
2009	113,530	113,530	-	2,375,112	4.78%
2008	122,262	122,262	-	2,255,755	5.42%

Notes to Required Supplementary Information
For the Year Ended June 30, 2017

Changes of benefit terms - There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation. The 2014 valuation includes Hybrid Retirement Plan members for the first time. The hybrid plan applies to most new employees hired on or after January 1, 2014 and not covered by enhanced hazardous duty benefits. Because this is a fairly new benefit and the number of participants was relatively small, the impact on the liabilities as of the measurement date of June 30, 2016 is not material.

Changes of assumptions - The following changes in actuarial assumptions were made effective June 30, 2013 based on the most recent experience study of the System for the four-year period ending June 30, 2012:

Largest 10 - Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

Largest 10 - LEOS:

- Update mortality table
- Decrease in male rates of disability

All Others (Non 10 Largest) - Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

All Others (Non 10 Largest) - LEOS:

- Update mortality table
- Adjustments to rates of service retirement for females
- Increase in rates of withdrawal
- Decrease in male and female rates of disability

A PROFESSIONAL LIMITED LIABILITY COMPANY

Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Honorable Members of
the Town Council
Town of Smithfield, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities and each major fund, of the Town of Smithfield, Virginia, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Town of Smithfield, Virginia's basic financial statements, and have issued our report thereon dated November 22, 2017.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town of Smithfield, Virginia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Smithfield, Virginia's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Smithfield, Virginia's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Smithfield, Virginia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
